### **IMMINENT THREAT TO USA**

MUTINY & ACTIVE COOP UNDERWAY TO UNDERMINE US DEMOCRACY UNDERWAY, TERRORISM (ACTIVE TERRORIST CELL), TREASON, USE OF WMD UPON U.S. CITIZENS. MILLIONS OF LIVES IN CLEAR AND PRESENT DANGER. ALL PHOTOGRAPHICS, BLOOD, SKIN, TISSUE REPORTS AND PSYOPS EXPERIENCE PROVIDED BY: RYAN PATRICK MICHELL OF CISTECH.INFO

Biological, Neurological, Chemical, Microbial and Psyops warfare is currently verified as being unleashed upon the American public all 50 states (with 100% certainty and evidence in hand). This is the #1 threat to both Americans, National Security and human life as it employs MK or Mind Kontrol Technologies designed to disable, disorientate, brainwash, groom, condition, destroy, kill, poison, disease, manipulate and modify the targeted victims actions. GOVERNMENT ACTION IS NEEDED TO INTERVENE IMMEDIATELY – SAVE

## IMMINENT THREAT TO USA - OVERVIEW

ACTIVE MUTINY UNDERWAY BY IDENTIFIED EMPLOYEES OF THE FBI (6), DOJ (3), CIA (8), DARPA (4), HOME LAND SECURITY (2), ATF (1), DEA (1), U.S. ARMY (4), U.S. MARINES (2), U.S. AIR FORCE (5) AND U.S. SPACE FORCE (2) UTILIZING WMD'S TO ENSNARE, EXPLOIT, SILENCE, GROOM AS STRAWMAN (Manchurian Candidate) AND KILL U.S. CITIZENS (posing problems): Mass distribution of Nano particles which are known to be radioactive (induction of electromagnetic radiation) and highly electrostatic (magnetic) nano mesh nets which are charged and collect debris (waste materials, ensnares, attracts & grows bacteria, viruses, microbes and metals) and deployed upon victim Ryan Michell and his significant other have been exposed to heavy doses of nanotoxicity, genetically altered microbes, psyops conditions/grooming/blanket slating, nano nets, mesh, particles. Chemical warfare: sedatives, drugs, neurotoxins, human waste as is their neighborhood which is the equivalent of a U.S. Government sponsored "dirty bomb" and bio, nano, chem, psyops and neuro warfare upon the public without legal, ethical or logical precedence or ratification by congress declaring war. The addition of a Weaponized RNM variant is in use in all 50 states as CISTECH.INFO and upon victims listed above along with victims registered, interviewed and verified numbering 600 coast to coast in a small sample taken from (rendering emotional & mental manipulation and modification covertly, subconsciously, subliminally and overtly or cochlear comm loop), Psyops (tormenting, grooming, conditioning, misleading citizens and service demanding members to commit suicide, commit acts of violence and domestic terrorism or False Flag events to conceal "Master Plan" ), Nanotechnology in active use (BMI – Brain machine Interfaces, Communications, Drugging – Nano Sedation delivery, Electrodes – Accessing multiple areas of the victims brain for "control, blanket slating and neural impairment" both transcranial and internally beyond the blood brain barrier, used in Memory erasing/Blanket Slating attempts upon Ryan Michell and successful in rape cover up of Valentina Sysa (Attempting to Infuse Multiple Personalities – Manchurian Candidate (In suggested attempt to garner a Domestic Terrorism plot), gain of function research, human experimentation, human trafficking, Rape, Murder, slavery, human harvesting, Poisoning – Nanotoxicity, Radiation (RNM use of ionizing EMF, Nano Mesh induction of EMF & Nano Particles – Electrostatic & Radioactive), Brain Damage, Non consensual neural transplants are being harvested by FBI, ARMY, NAVY, AIR FORCE, SPECIAL OPS, DARPA, CHILDREN and CIA employees from Ryan Michell's (thought to number thousands) matching his DNA profile. This copies his neural synapsis and to expand neural network of "HIVE MIND" HUMIT group called the "Serpents" or "Vampires". Victim Ryan Michell is non consensually being victimized in taking neural clones and copies essentially afflicting him with "neural soul snaring", neural slavery/dilution of his neural capacity, ability and of natural self well being and causing great bodily harm and psychological duress in division of abilities to benefit unknown neural outputs within and hierarchical pyramid scheme (reverse in that many victims are daisy chained together and yoked for human capital benefit while few outputs benefit from physical capital and general agencies benefit for HUMIT) of the Neural Network that is maintained by U.S. Government and imposes upon victim a computer or virtual construct known as the Matrix which is a virtual "neural prison" housing both "Aware and Unaware" utilizing DNA and neural signature to abduct and enslave victims "wirelessly" and invisibly to the naked eye. Some victims have knowledge of the Matrix while other have their neural signature copied and a avatar created and placed within the Matrix and they suffer mental and physical ailments without knowledge. Observers without knowledge fail to comprehend infliction of torment, torture, manipulation and modification of victim behavior while a third

party ROD “drives” occupies victims neural hemispheres to control victim and represents the “unaware” virtual clone without their knowledge or consent.

Electroshock/Electromagnetic Field manipulation and disruption of victims biofield, body, brain is adversely affecting victims with intent to “blanket slate” erase memory, wipe and infuse alter personality, cause brain damage, compel performance, weaken and kill victims. The biofield itself amounts to 80% of the human immune system and significant amplitude causes gravitational anomalies to victimize the person being targeted. The nano additive makes victims extremely electro static and moves a directional current through the victim and group to transfer data emissions and physical capital extracted and obtained covertly, this also explains the electronic disruptions that are common to victims experience when grounded, this also causes extreme pain frequently at the discretion of the ROD using it as a torture method both externally and internally via nano tape, mesh, net, electrode, gel and remote magnetic field modification or manipulation.

ROD’s deploy DARPA’s N3 Nano Gel, mesh, net, tape, tubulars, particles, fibers, strings, microbes and fungal munitions for multiple of purposes including but not limited to incapacitate the victim, conceal, disable, destroy, groom, confuse, intimidate, scare, retaliate, brainwash, manipulate and modify victims behavior. For example, it is used in Dividing the victims Neural Hemispheres like with Ryan Michell for which Teams of ROD’s “work” each hemisphere to communicate, talk through, misrepresent, utilize in metadata computation and analysis for context and reason. This includes analysis and second opinion of predictive modeling and to create falsified neural signature recordings amongst many other nefarious “shady” behavioral modifications to the victim while they are concentrating on one question they are being tricked and asked another on the opposite hemisphere by the other team purposely trapping them into a “false confession” by design. Then they erase on mend the “wanted recording” to justify further investigation, evidence or fake proof to enhance tactics, trick family members and significant others. This is how the family members/significant others get involved in these heinous exploitation and human trafficking rings. This electroshock therapy or electrocution of the victims can be Transcranial externally and internally used as Physical Restraints much like rope or handcuffs demobilizing and incapacitating the victim to be abused further or disorient then enough to inflict the intend damage (AKA the chains abuses, assaulting, torturing and falsely imprisoning the victims coinciding with the neural prison “construct”, cochlear/visual torment induction, mental/emotional modification, biological, chemical, neurological and psychops weapons and literal dirty bomb unleashed upon residential neighborhoods). My neighborhood is one of them as I have viewed drones drop off and drug across the neighbors house and yard was several large sheets of nano mesh for low altitude either retrieved or repurposed and I have witnessed the my patio “drip” from a transparent gel liquid DEW like substance onto me and on another occasion a short burst of “rain” like small pattern upon my neighbors roof (only) while siting outside. Together these materials form a weapon and collection system for both cleanup of the nano technology and collection of assets extracted from the human. Nano in electro magnetic and attracts debris where the gel holds it as is absorbs into the skin. The mesh sheets literal wrap victims externally and internally coat lungs and organs holding debris within the body. Even without debris these substances are highly toxic causing Nanotoxicity. Add nano particles, fecal matter, hazardous waste and reused without been satanized and you have a radioactive, debris filled dirty bomb. Electrified this is restricts or cease the victims ability to move their muscles and deprive the victim of air and motor functions disabling electricity them and causing significant vulnerability, pain, discomfort and death.

I have noticed this nano mesh in my garage and various portions of my house including the kitchen, living room and bedroom. Residue is throughout our house and has draped me while sleeping. I also observed it being used in conjunction with holograms and almost nightly staged "rape" scenes upon my significant other by enlisted men from the Navy, Army and Darpa attempting to as they state cochlearly that they are trying to "impregnant" her (remember the nano particles delivery drugs and medication. Why not sperm?). I know this is also used to "electrocute" her brain as she is very forgetful of even the previous nights events, things said and is slow in recognizing "vulnerable" and dangerous positions. For example: The RODS the previous night read off a "laundry list" of things to come negatively affected our lives including "making her dog disappear forever". The dog did in fact end up missing and I was run in circles trying to find him. They even attempted to ransom the dog and when my significant other got home she was upset with me as they said she would be. Later she left the house telling me only that the someone found the dog in chandler which is 10 plus miles from our house. It's unlikely the dog ran 10 miles in the dark, yet she didn't pick up on the danger and called them "nice people" even though I explained the situation.

This nanotech is used in many violent fashions such as Strangulations, Choaking, Asphyxiation, Aspiration, heart attacks, stroke, brain bleed, electrocution, bone loss, tooth decay, phosphenes, tinnitus, migraines, intellectual property theft, heavy metal poisoning, nanotoxicity from nano particles, DNA disorders/disruptions from traverse scalar wave infiltration and nano electro static self assembly, manipulation of bio matter into structures capable of dismantling systems within the human body and its disrupting it symbiose. Staging processes over time cause significant neural and cognitive disorders along with the "doping" or sedation applied by the RODs which has happened to me and my significant other several times including the night I was told she would be violently gang raped (she also doesn't remember the incident but blames me as the ROD's state they made a CG video of me raping her which I would never do. I have proven over 10 security videos on a jump drive to be "computer" enhanced placing my face over the CIA clean up person. It also has caused me sepsis, nervous, endocrine, limbic and circulatory system dysfunctions that are evident by my blood results and the tissue samples pictures provided below. Nano particles delivery neural toxins, Psychedelic substances like DNT, yoke gland Releases of DMT stored in the body along with other chemicals like serotonin and dopamine amongst many other neural chemical changes and release mechanisms are accessed by these technologies. Genetically altered microbes collected from blood and tissue account for the biological weapons used upon Ryan Michell as a victim and meant to control, disguise, and worsen his health situation (I have 6 on hand). Additional additives such a Spore Pods were delivered into my lungs introducing Psylocibin or an equivalent hallucinogen – I make these reference based on the "root" like biological structure collected and compare it to the fungal likeness of mushroom roots causing hallucinations. These are added to the body to enhance Visual Cortex Induction, experience, stimuli and hologram projections through frequency modulation. It is also used to disrupt lung and repository function causing sickness and concealing other genetically altered microbial weapons systems. Human Harvesting, Illegal Human Experimentation and Illegal HUMIT Program in use under the disguise of NATIONAL SECURITY to conceal great civilian suffrage and an ongoing MUTINY and COOP in progress within the United States. Millions of U.S. Citizens are in immediate need of medical assistance, protection and help as there is no greater threat to the National Security of our country then the protection of our constitutional rights and democracy. The "Wager" style militant group that has infiltrated the U.S. Government is literally pushing totalitarian dictatorship style ideologies of submitted to a nazi type jurisdiction and seeding all rights of yourself and abilities to a "Master" or owner. They

treat victims like slaves stealing their hope and American dream, their birthright of civil liberties and providing no assistance other than systematic lies and mistruths that deplete the victims into former shells of themselves.

Human harvesting is taking place specifically regarding Phonon/DNA cultivation/destruction and extraction of adrenochrome like "oily" substance and "implants" which are all collected and consumed by the members of this group suggested to be led by Special Agent Phillip Bates of the FBI's phx gms JTTF and U.S. Attorney Kristen J. Brook as offered by themselves. She is also the apparent ROD misrepresenting my significant others "false" digital clone and subliminally/subconscious causing her great duress as per her conscious and our relationship. My significant other seem empty and agitated most of the time with her eye dilated. I have also witness the heinous internal deposit of Brain matter/neural threads and their removal that are initiated from inside the skull by a Femonano Plasma laser drilling "worm holes" that are evident within the victims brain causing damage and burns. They are delivered adjacent to the victims then activated by a second DNA BIO frequency coded laser tuned to the targeted victim (Bio coded direct energy weapons or DNA bio resonance frequency). These plasma nano technologies act as mirrors to focus electro magnetic radiation on to the victim or focal point like a microwave telescope or provide surveillance and ensure communication signals operatethe everything from the internal/eternal electrodes, nano mesh, nets, tubulars, external hologram enhancements or lenses placed over the victims eyes. This accounts for the chemical, neurological and psyops (Nano is one of several cochlear paradigms options available to covertly communicate with the victim via infrared and electromagnetic for ultra security and possibly cellular distribution. This ensuring said audible torment is imperceivable to anyone else but the intended victim making it impossible to say the targeting was an accident). Microbial and fungus munitions have been deployed and expended cartridges are in my possession, Sonic and DNA BIO coded directed energy weapons are currently in active use upon U.S. Citizens.

Psychological/Emotional/Mental torture and conditioning via audible and visual stimulation are constant without privacy or peace and include excitation or the saturation infrared upon the victims cells are common place, PTSD upon victims is common based on extreme duress caused throughout traumatic the event. Hence "Flashing" or blanket slating transracially to remove the memory is a daily event "short term and long term". Victims are often urged to kill themselves referred to as "suicide without consent". Suicide rates amongst targeted individuals is high including service members, children, adults and the elderly as they don't understand the source and can not stop the agitation. Targeted victims are conditioned to harm others as ROD's groom them to believe their aggressors are local or known within their lives in some fashion (family, friends, exs, neighbors etc). They are also groomed to commit domestic terrorism events as in many cases support this fact through evidence. Slow Kill or long term death through radiation poisoning, malnutrition, nano toxicity, metal toxicity, cellular dysfunction, organ failure often take years based on exposure rates and conceal the fact that the "U.S. Targeting" Program is a long term, long standing GENOCIDE, GENTRIFICATION AND SOCIAL ENGINEERING PROGRAM centered around COMMUNISTIC IDEALS, VALUES and FUNDAMENTALS. This is contrary to our DEMOCRATIC FOUNDATION and proves not only is the practice unconstitutional on its face but it IS IN FACT A MUTINY in the organized fashion and an Infiltration of our system of law and governance amounting to government sponsored Assassinations without legal authority. These actions are undoubted terrorism upon U.S. Citizens, Treason on behalf of all of those acting in an

official capacity on behalf of the United States Government and JUSTICE MUST BE SERVED BY ARRESTING EVERY U.S. Government Agent, Employee, Official, Contractor and Solider Involved.

Constitutional Violations: Terrorism, Treason, Cruel and Unusual Punishment, Lack Of Due Process, Warrantless Surveillance, Illegal search and seizure, Invasion of Privacy, Failing to Mirandize, Negating Right To Counsel, Negating right to face your accuser, Unwarranted Interrogation, eliciting False Confession, Obstruction of Justice, Failure to provide right to mount far trial, Denying right to an impartial jury of ones peers and denial of basic human rights as entitled. CIVILIAN ASSISTANCE REQUIRED IMMEDIATELY – VICTIMS ARE UNDER EXTREME DURESS MENTALLY, PHYSICALLY AND EMOTIONALLY.

## **DETAILED FORMAT**

Cognitive Investigative Services, an Arizona Non-profit and Cognitive Abuse Investigator Ryan Michell reveal with certainty, physical proof and the witness testimony of hundreds of verified victims (not excluded millions of Americans are currently being victimize) by U.S. Government technologies, weapons system, Intelligence & Investigative Agencies, their officials, their employees and contractors all acting in an official capacity on behalf of United States of America. Weapons of war and tactics have intentionally unleashed upon our citizenry by methods of Chemical, Biological, Microbial, Neurological and Psychological operations directed upon our society tormenting, torturing, irradiating, poisoning, harvesting human capital, enslaving, facilitating Interstate Human Trafficking, Falsely Imprisoning U.S. Citizens by means neural signature obduction, restrained by Nanotechnology, forcing BBI (Brain to Brain Interface) of HIVE MIND for means of illegal gain of function reach, theft of intellectual property, heinous human experimentation, illegal intelligence gathering, psychological blanket slating and fulfillment of “False Flag” groomed Manchurian Candiate style domestic terrorist events, torture, terror and technically induced torment. The use of previously classified technologies not well known to common citizens, the public or law enforcement amounts to modern day slavery and neural concentration camps in plain view of society. This is intentionally concealed by the guise of National Security necessity hiding non consensual HUMIT program, targeting program, gentrification program, mind control program which utilizes nano technology Darpa N3 to control, operate, disable and kill U.S. Citizens. Sometime they are misdiagnosed with mental illness, substance abuse, paranoia and general conspiracy theory as deferment and coverup from the truth of this atrocity. CIS was proof in possession. For factual reference none of the above stated camouflages are legal, ethical, constitutional or just highlighting the wide spread destruction caused to victims and our communities. The United States Targeting Programs amount to the equivalent of a “Death Warrant” without consent or protection from law enforcement leaving victims with no place to turn for help. Variations of these HUMIT programs originated from MK-Ultra, Geuna Pig, Project Blue Beam, Monarch amongst others and are now referred to as Project Ventriloquist with technological Nano Technology provided by DARPA’S N3 program.

This CIA programs evolution over decades has literally been responsible for killing millions of Americans without legal authority, warrant, consent, indictment, trial, sentencing or remedy. Death of these innocents victims may comes from assisted suicide without consent as urged by PSYOPS operators, localized government sponsored terrorist cells facilitated by the FBI known as Gang stalking Units and allegiant underprized convert operatives without legal sanction to partake in investigative, interrogations or surveillance. Psyops field manuals show case the standard operating procedure and

tactical interactions Remote Neural Operators deploy upon U.S. Citizens falsely imprisoned within these U.S. Govt Neural Networks which are facilitated, initiated, participated, incentivized, monitored and maintained by the U.S. Govt and various intelligence agencies. These classified U.S. Govt Neural Network utilize little known technologies such as cochlear heterodyning by which hostile Remote Operators “groom” and condition victims into fulfilling predetermined outcomes much like “Manchurian Candidates”. Victims are brainwashed or lead to near insanity who then commit violence against others (such as well documented acts of domestic terrorism, mass shootings and domestic violence etc) This behavior and reaction is nurtured by hostile ROD’s forced the victims into submission, conformity to a cult like cause or to accept government sponsored assassination themselves if they do not accept the will of the Mob or Gang mentality. U.S. Govt ROD’s utilize local “enforcers” also known as allegiant Proxies fulfill mob theatre, threats of violence and even hits upon innocent non-conforming victims which keeps Government hands clean of involvement although the network records every profile in use by the NSA, CIA, DARPA and U.S. Military. They network continuing growing by referral of the FBI JTTF Official to the TSBD/NIS Code 3 & 4 List then they often disappear into a deep rabbit hole of obscurity and lack of transparency. Enforcers keep the non conformist in line as these neural clusters of Confidential Human Sources are wireless “chained” with DARPA’s N3 programs nano technologies utilized for covert and secured looped communications with the victims which are imperceivable to anyone but the victims, enforcers, ROD’s and ISA. This nano technology is used as a torture device of electronic dog collar for location and electrocution purposes and all encompassed in a Computer Construct within is literally beaming into the victims head mentally solidifying a neural prison for which there is no escape, assistance or off switch. Neural clusters are maintained by region and compartmentalized within a national neural network. The induction of EMF radiation from this ionizing form of weaponized remote neural monitoring inflicts a wide range of physical and neurological diseases upon the victims such as cancers, organ failure (heart attack, kidney failure etc), sepsis, malnutrition, cellular deformation, nervous system disorders, limbic system disorders, endocrine system disorders, brain bleeds, strokes, aneurisms, dementia, brain damage, bone loss, tooth decay, skin thinning. This radiation over time is a death warrant in itself “covertly” without addition weapons systems munitions, PSYOPS torment, Nanotoxicity, Sonic pulse, Microbial and Fungal munitions additives.

This Nanotechnological is designed for warfare, destruction, death, grooming, drug/poison/neurotoxin delivery and nanotoxicity are responsible for the intentional poisoning of victims which comes in various forms: drug/poison/toxin delivery and nanotoxicity by contaminating the victims home, water, food, bedding, shower, vehicle, clothing and saturating the victims body by absorption into their skin. Injection into their mouth and airway, nasal passages, eyes, ears, rectum and genitals. All this while ridiculing and chastising the victims as to their nefarious actions and impunity as per the U.S. Government to get away with it. Most ritualistic daily torture exercises involve a great deal of humiliation and pain caused upon the victim by these U.S. Government ROD’s including nightly electroshock therapy via DARPA N3 Nano mesh nets and a variety of harpoons dug into my back or stomach. This DARPA N3 nano mesh is used to wrap the victims face and body while sleeping and forced into their mouths restrict their airways with a cotton fiber textures nano material literally used choke the victims by injecting it into their throats, stomachs, lungs, organs and causes breathing issues. I have experienced the ROD choke me with this nano mesh on various occasion mimicking “water boarding” in which I literally struggled to pull out the foreign mesh for 40 mins, choking and gasping for my breath. This has happened many times in various fashions including involving a sexual assault for which the

gel electrodes were shoved into my penis, underneath my testicles and used to sodomize me without consent and against my sexual orientation to humiliate and destroy me psychologically. This ROD leader known as ERIC which is also a call "sign" cover name for a Cognitive Science Operator I can personally ID originally at Langley. I am constantly tortured nightly along with threats of the same happening to my significant other.

They claim to rape her nightly and I have witness the nano mesh hologram upon our bed portraying the figures of multiple strange man sexually assaulting her on several occasions (CIA, ARMY, NAVY and DARPA, SIS and Special Agent Phillip Bates Gang stalking CHS crew). These U.S. Govt representatives, suggest they are attempting to impregnant her with another man's semen unwittingly to her and have said to have added five additional sexual deviants to her neural signature file which is current "covertly" RNM'd in which she is subliminally and subconsciously messaged and manipulated by emotional and mental state modification capabilities. Within the EBL she is represented as a prostitute and constantly sexual assaulted are audibly and visually rendered to cause me great distress. Further, one must consider the SUBCONSCIOUS reaction to being constantly raped as she sleeps utilizing a neural construct non consensually. Although she does not speak of it and I know she is unwitting to this technology I see the sadness in her eyes. Discontentment in her actions and overall behavior and it is also very disconcerting for me as I am aware and can do nothing about it other than make a scene publicly for which she will not understand or patience try to help her process through her feeling for which I know to be truthful. This is government sponsored RAPE, abuse and human trafficking utilizing psychological weapons technologies. Operators from multiple EBLs including the CIA, NSA, DARPA, U.S. Military and Proxy allegiant thugs have consistently attempted to separate us as a couple for the last 2 years provided a constant source of subliminal turmoil. I am constantly told to leave our home by these operators and that they OWN her, control her and will kill her if I do not abide by their demands and consent to their dictatorship.

She is unwittingly cloned into this virtual computer construct and subconsciously beamed pornography as I am witness to against our will and tastes. I have confirmed their neural abuse and monitoring upon here as she reacts to the suggestions and verbal ques of the male operators messaging as it is told to me audibly, she is constantly aware of facts she should not be and angerly overreacts to situations that seem over blown, she seems to have a constant "mind block" restricting my ability to communicate or connect with her, she is constantly agitated and as per the ROD's threats and negative subliminal direction for my non compliance the their demands. They have even suggested they arrange or "make and brake" up relationship including ours. She constantly believes I am either cheating on her and that I am using my money inappropriately which I am not. She constantly forgets many situations and instances for which we were together as I couple and admit to "blanket slating or wiping memories" all this while they admittedly apply TMS or transcranial magneto to her brain. Approximately 1.5 years ago when the overt psychological torment began and I was attempting to understand the wholistic situation my significant other and I were at odds. I was told she was cheating on me with another and unfortunately took the bait by addressing it with her and leaving to stay at a hotels. That night the ROD's and allegiant proxies gang stalkers (numbering 8 for which I can identify as Special Agents Bates Gangstalking covert unit) threatened to brake in and rape my significant ot'00her and said they were going to video tape the crime. Concerned I call her and she was noticeably SEDATED (heavily medicated – not inebriated based on her voice and reactions – slurring words). Upon a brief conversation I told her I loved her and goodnight (My phone causing damage to the epiphyseal gland,

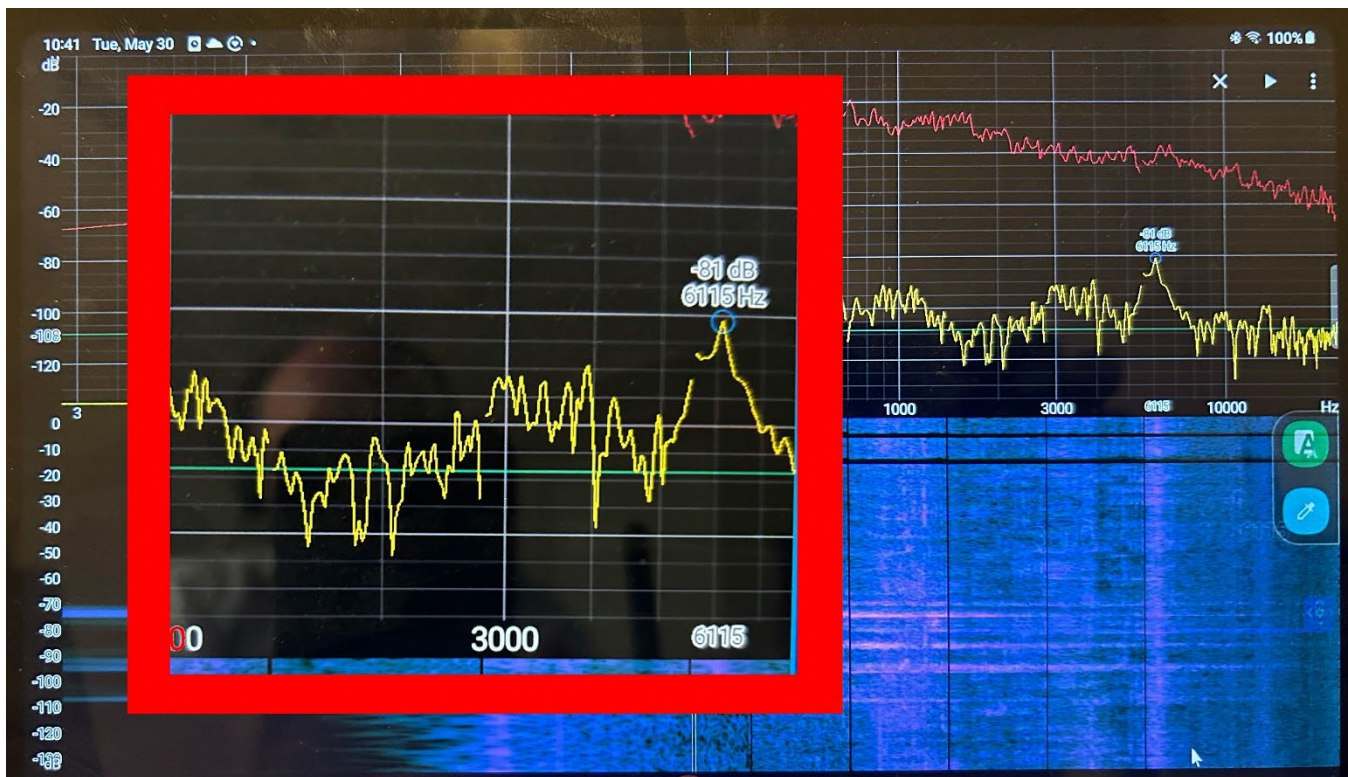

pituitary gland, thyroid gland, thoracic gland, pancreatic g-land, suprarenal gland, testis and ovaries. Victims also die from nanoparticle radiation poisoning. These nanoparticles pollute their bodies, homes, families, significant others and communities non consensually and unwittingly on behalf of the victim. This nanotechnological is also used as an explosive to cause ruptures to the victims blood vessels, brain and vital organs. It is imperative that U.S. Govt. Officials and Employees take immediate action to save lives.

Further genetically altered exposure to a variety of microbes and fungal munitions tailored to enhance detriment to the victim and conceal or camouflage the uses of the above mentioned technologies and weapons systems are in current use. U.S. Citizens are literally dying and immediate interdiction is required to save lives. We have proof and samples of all U.S. Government weapons systems utilized above and below.

We prove these facts through blood, tissue and skin examinations and samples in our possession for which we would willingly share upon official government request and aggressive investigation. Ryan Michell through his experience, blood results, tissue samples, victimization and ongoing symptoms continues to attempt to "Ring the liberty Bell" and bring law enforcement awareness, public understanding and action through this "CIVILIAN DISCLOSURE" of gross governmental abuse of war grade munitions upon U.S. Citizens. These victims are often referred to as Targeted Individuals, the Gang stalked or community stalked and two variation exist: #1 The true Victim who is tormented and tortured daily without law enforcement assistance or reprieve and #2 Former victims who are allegiant proxies and chosen to become local "mob theatre enforcers" who have either been paid or leveraged to participate, comply and assist in the U.S. Government in the ongoing extortion, exploitation, degrading, grooming, trafficking, torture, torment and indignation of new or non conformist targeted victims. Demographically victims they come different backgrounds from soccer moms, veterans, children to the elderly and felons; ranging in ages (we have verified, interviewed and have as supportive witness) from 3 years old to 65 years old. All verified victims we attempt to assist and screen for authenticity have varying personal experiences by design of the Psyops experience inflicted upon them but nearly all the exact same symptoms deriving from the technical induction of U.S. Bio Coded Directed Energy Patents listed at the end of this brief and have been exposed to a "text book" style staging process utilizing a variety of weapons systems based on their human capital potential and non consensual harvesting purpose. These weapons systems in further detail include:

- 1) Remote Neural Monitoring with human modification capabilities (Illegal Surveillance – Violation of FISC 702) – Covert (Subliminal & Subconscious Decision making, mental and emotional state Modification, thought to text/speech aka “synthetic mind reading”, visual memory and thoughts stored on D-wave IBM quantum servers and induction of visual stimuli to fulfil predetermined outcome desired by ISA (Identification System Administrator, ROD’s and Proxy CHS – Confidential Human Sources ) RNM is a covert receiver in this application inducing ionizing electro magnetic radiation upon the victim. EBLs (electronic brain link systems) utilizing a victims unique neural signature (like a finger print and specific to 1 person on earth). This can also be abused by submitting the victim to multiple EBLs or Agencies adding radiation exposure and causing more cognitive load/stress/noise upon the victim. Further the victims Neural Signature can be spread over and used by many operators simultaneously or neural network output beneficiaries (non consensually and unknown to most victims) – this dilutes and disorients the cognitive focus of the victim and benefits the output beneficiaries and ROD’s in concealing their crimes. It also reduces the victims natural cognitive strength and allows for the manipulation of the victims biofield making up 80% of their immune system for protection against environmental threats. This can also be to conceal originating Agencies crimes, involvement in wide spread genocide and frame the victim themselves through extortion, misrepresentation or consent and involvement in the scheme itself. Neural Signatures can also be “spoofed” are adulterated from their original acquisition profile: for example: Ryan Michell’s true neural signature could be mislabeled as a known terrorist like “Bin Laden” and then to a “Slow Kill” (Hello, Goodnight and Goodbye Military Psyops program outside the United States) by the U.S. Government Operators guilty of war crimes and looking to cover their tracks. These true terrorist targets would be seen as a serious threat to national security which exposes the victims unjust treatment and addition weapons technologies and abuses to “silence” the truth they are bringing to light even within the United States. This is made possible by the fact there is

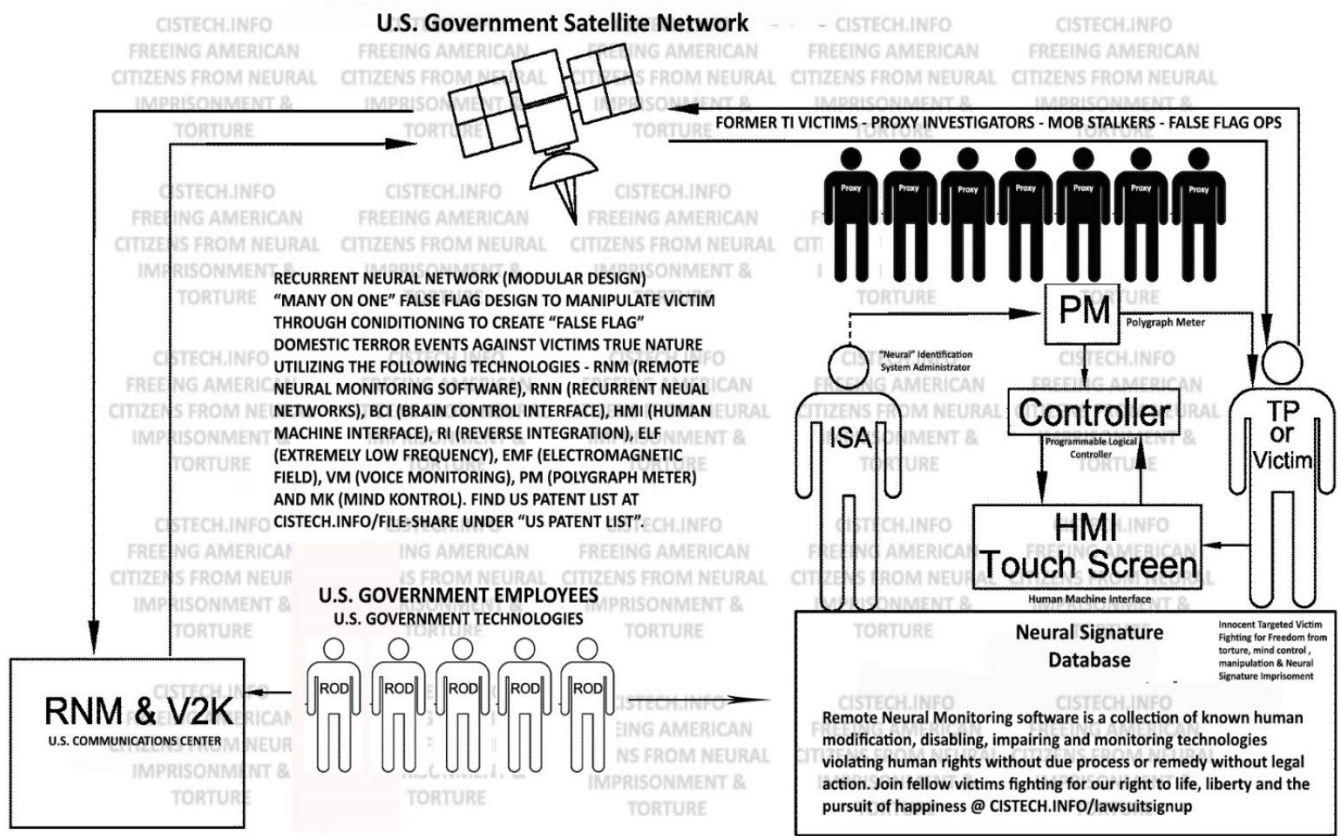

NO Centralized database of U.S. Citizens or “Do Not Target” protocols in place. Yet there are multiple EBLs and remote neural capabilities available to multiple U.S. Agencies in varying degrees. Further the lack of Compliance, Accountability, Knowledge, Transparency and Enforcement bodies almost guarantee the perpetual abuse of like weapons systems upon U.S. Citizens by the U.S. Government.

Symptoms: Remote Neural Monitoring even used covertly without subliminal, subconscious or direct overt attribution and additional weapons systems additives is unconstitutional and physical damaging to the victim or subject. Symptoms include: Tinnitus, headaches, brain damage, radiation exposure, phosphenes and neurological disorders.

Psychological Warfare Technological Distribution Diagram Overview:

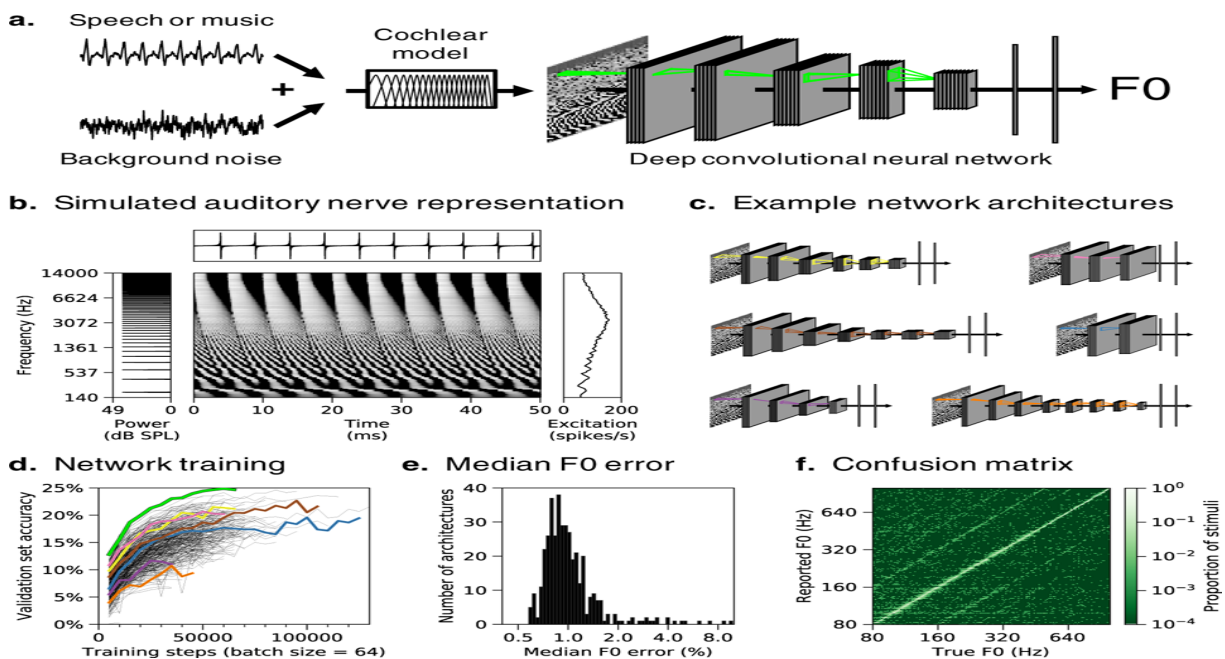

The use of these Psyops technologies is without a doubt a United States Military Weapons systems including the illegal HUMINT programs utilized by the FBI, DOJ and Fusion Centers. Non consenting victims are treated as “Cellular Towers”, spied upon, groomed and conditioned without warrant, moral justification or assistance as they are diseased, destroyed and left for dead within our communities. 99.99% of the general public is aware of the existence of these “Mind Control” technologies even in their most basic forms. The U.S. Government employs highly complex variations of the systems and conceals the victims ability to get help.

- 2) Voice Of God (Weaponized RNM Targeted To Individuals) – References an Infra/Ultra Sound Psychological warfare weapon as classified by such in 1979. This weapon was most notably used during the Gulf War in which a battalion of IRAQI troops surrendered their tanks and small arms without firing a shot. In short they all were induced with a fictional “Spiritual Experience” for which they simultaneously heard voices (cochlear paradigm – infrared beam as per original experiments in 1961) and visualized “Ala” or God commanding them to surrender to the American Army. This technology utilized frequency modulation for sound and amplitude modulation for visual 2d induction of imagery into their occipital lobe which were then projected into their secondary optical nerve. This is similar to the Targeted Individuals experience and different in the following ways: The IRAQI troops as a large group were exposed and induced with this experience at the same time meaning the U.S. Army most likely utilized “mass spread”

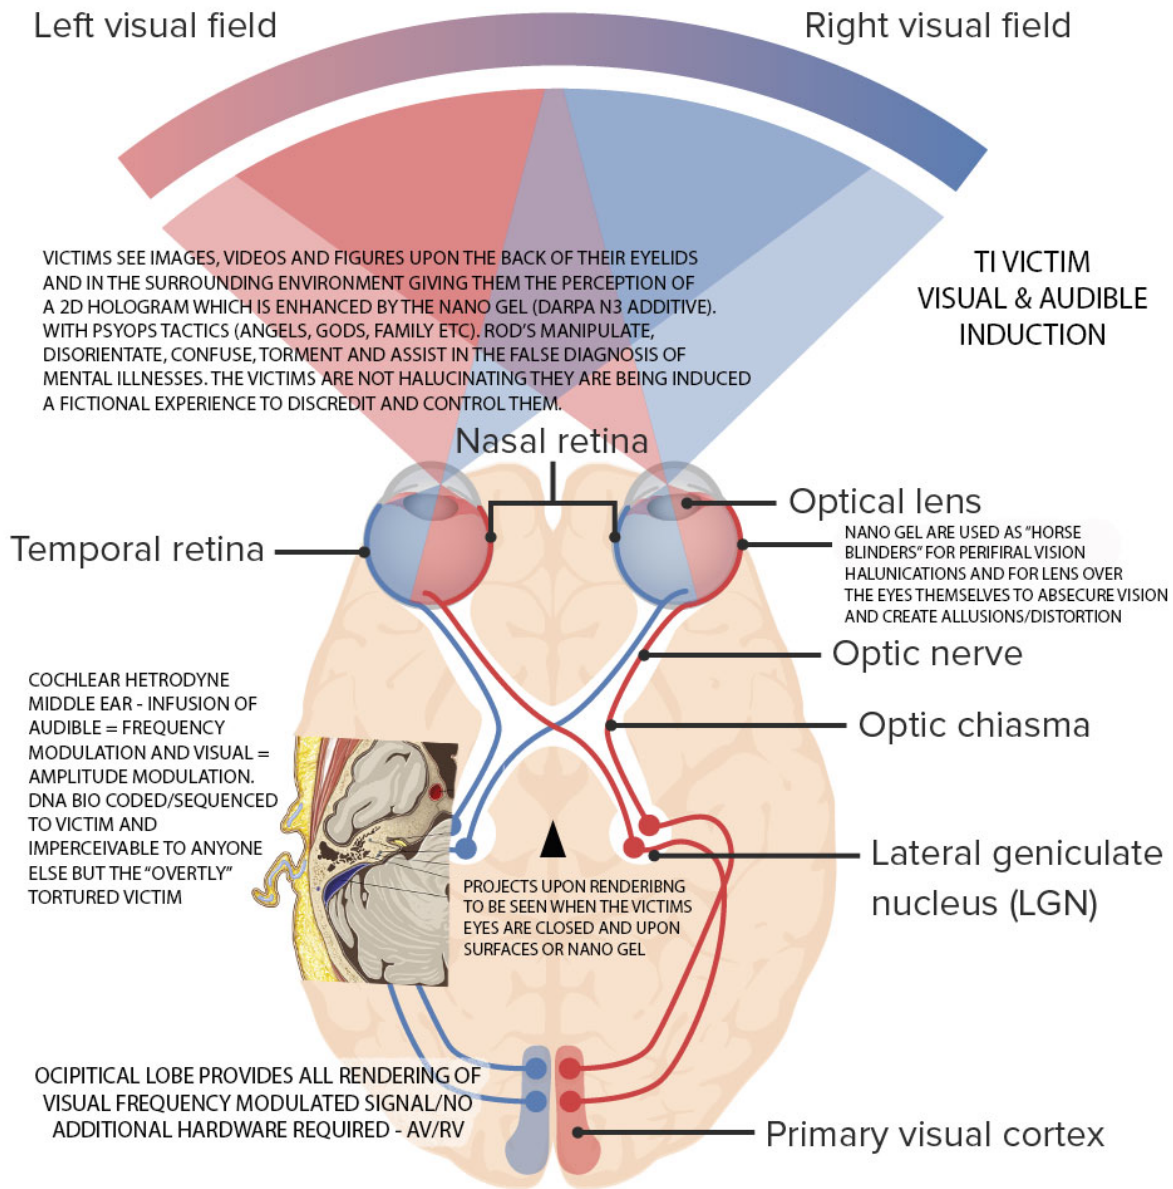

technologies (not DNA sequenced or BIO coded resonance frequency tailored to today's Targeted Victims although the experience was similar). These V2K mirrors were used to the entire group of IRAQI soldiers heard the same narrative with IR (Infrared Technologies – Line Of Sight distributed via low orbit satellite and ground units). That experience did not require a Neural Signature and was not “imperceptible” like that of today’s Targeted Victims as their Cochlear heterodyning which can not audibly be perceived by anyone else but them and is unique to their Neural Signature (ions to datasets to individually tailored RF, RV, ELF, IR & EMF or DNA sequenced bio coded resonance frequency to ELF or Scalar – transverse or longitudinal – DNA is used as an Antenna – receiver for which this type of wave type transmission has been concealed from the public for 100 years and is extremely hard to detect as most related measuring devices are not equipped to be made capable to read these wavelengths or recognize their presence).

### Cochlear Heterodyning

Today’s Psychological warfare upon U.S. Citizens is undoubtedly meant “ONLY” for the Targeted Victim regarding Audible and Visual induction of ridicule, torment and pain. This is to include the emotional and mental state modification technologies that literally destroy victims mentally, physically and emotionally. The affliction of the Targeted Victims family, friends and significant others is 100% relevant and in play in the overall “thoroughness” and intent to isolate and destroy every Targeted Victim. For example: Significant others are covertly manipulated to believe their significant others are cheating, out to get them, attacking crazy, destined to be screwed over by their other halves and neural applied “mind blocks” restricting all normal and past connection and intimacy. It is Overt (All the above mentioned Remote Neural Monitoring capabilities plus the addition of multiple bio coded directed energy weapons systems.) Cochlear paradigm refers to a looped encoded and encrypted communications system utilizing extremely low and ultra low frequency which is used primarily by the Military. These waves travel at or beyond the speed of light and penetrate just about everything including bunkers. They are

speed to communicate with submarines and are next to impossible to shield from. They cause the targeted victims everything from general pain to cellular damage, brain damage and even DNA disruption or “ripping” which is a traverse scalar waves literally used to dislodge DNA, separate Phonons from the DNA structure and divide the structure. Cellular damage refers to the vibration of calcium upon the cells which create thermal heat until the cell walls destabilize and become liquefied. This renders cells as being mutated and upon division of the cell creates addition mutated cells and various forms of cancers from the victim.

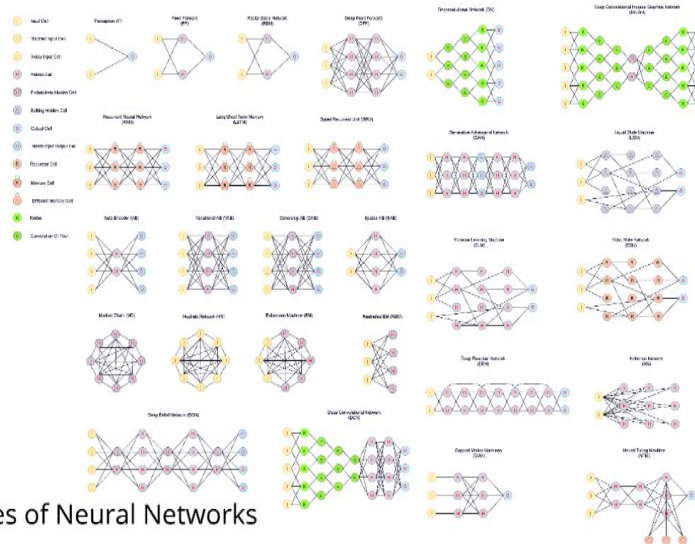

Visual Induction for torture, harassment and 24/7 365 audible and physical torment for which the victim can not escape. The victims perception is that of being imprisoned and haunted without reprieve). This MK (Mind Kontrol) technology is not an investigative tool as it designed as an advanced interrogation tool employing methods and tactics acquired over the years. This is used solely to disable, degrade, destroy, groom, brainwash, blanket slate and ultimately modify

the behavior and actions of the targeted victims. This includes separated Neural hemispheres or splitting the victims “singularity”. This forced duality allows separate teams of operators to literally “drive” individual hemispheres, manipulating communication within the neural network, perception and cognitive output of the neural signature recording. This creates two recording impressions and can be used to blanket slate and transfusion and altered ego or personality into the victim. This procedure was developed in the MK-Ultra era upon mapping the victims neural synapsis in effort to create Manchurians style candidates that could be turned on, drive and controlled then off so they would not recall their actions. This is also referred to medically as dissociative disorder or former multiple personality disorder. Other victims are simply “conditioned” like Pavlov “salivating dogs” to react to torturous stimuli intended to cause violence against others and conceal the truth.

## Neural Networks

The United States Government utilizes advanced neural networks for which the “artificial neuron” is in fact a targeted victims neural signature (or neural fingerprint). The primary architecture type and design in called an “adversarial architecture” and the design often deployed is referred to as “many on one” (or a bully/mobbing of the victim – many operators upon a victim). This means non conforming targeted victims are subjected to U.S. Govt remote operators intent upon “braking” them mentally, physically, emotionally and financially. These work in U.S. Comm centers in Teams to subvert, manipulate, destroy and groom the victims to fulfill their intended nefarious will.

This networks steal human capital from each victim to benefit the “output” and hosts of the neural networks in a litany of ways. We have knowledge of military and Intel Agency personnel, troops, officials and their families benefiting from the “yoking” and illegal harvesting of U.S. Citizens from coast to coast. We have knowledge and proof of identifiable individuals in the following agencies with knowledge and intent to brainwash, yoke and kill U.S. Citizens. They include the ATF, DEA, FBI, DOJ, CIA, DOD, DARPA and U.S. Military

## Tactics

U.S. Govt operators utilize litany a Psychological Tactics and conditioning tools to disable, Destroy and kill Targeted Victims. Most generalized tactics are found to be in similar in nature Across the victim experience upon interview (find mass groups of Targeted Victims for which are U.S. Citizens on social media seeking assistance and they remain forgotten.) The victims personalized experienced can be explained as the design of the PSYOPS is to find emotional triggers and philosophical beliefs for which the victim will accept as an explanation. The profile developed upon the automated system aspect of the RNN and software profile of the victim allows any U.S. Govt operator to sit down at the HMI Touch screen remote neural monitoring station and “workout” the victim.

Generalized Tactical Themes For Which ROD’s misrepresent themselves “Overtly” as to victims Include (cochlear looped comms):

- Gods, Angels, Demons, Ancestors, Ghosts, Spirits & Religious Figures
- Cartel Members, Gangsters, Drug dealers, Bike Gangs, Mobsters etc
- Friends, Family, Loved Ones, Classmates, Significant Others
- CIA, FBI, DOJ, DOD, Military, Public Officials etc

This explains the confusion most victims have regarding the origin of the harassment. Humans are tangible creators and most of us want to make sense of the torment. This is why generally victims accept the notion the perpetrator is a neighbor, ex, family member or local evil person. Two additives come to mind here: 1) Community stalking or localized conforming proxies are in fact a reality and responsible for a multitude of “close and personal” torment to the victims but as the technology was designed and patent allow for the “talk through” or ventriloquist patent which makes voices eminent from an individual the victim is observing without the knowledge of the individual themselves. The victim will perceive the individual threatening them which is imperceivable to others (DNA/BIO coded resonance targeting). 2) The conforming proxies are in fact “loyal” trained and well funded to execute these PSYOPs local through groups of U.S. Govt sponsored terrorist and are connected to U.S. Comm centers across the country. This generally ensure the success and concealment of the “TRUTH” including the destruction of individuals and families, framed involvement is crimes to government sanctioned assassinations through the use of “Proxies or Puppets” or concealed by PSYOPS ROD’s to silence non conformist and those informing the public of the truth. The psyops teams have a counter propaganda apparatus used to smear and coverup media leaks.

## Government Sponsored Human Harvestings – Non consensual Slavery

Intelligence/Human Asset Gathering – NOT INVESTIGATIONS – We point the difference between Investigations which are covert, have been fully disclosed regards capabilities and warrants to support the use of said surveillance. Psyops, RNM an MK technologies are designed to gather personal information, emotional triggers, develop psychological profiles to execute predetermined “false flag” and serve in slavery type roles for a U.S. Govt Agencies or the military. Victims are leveraged, maliciously prosecuted, threatened, deceive, framed, injected with false memories, communicated through to produce false confessions, false narratives and inaccurate statements in regard to the truth. This is done to 1) Justify continued torture upon the victim. 2) Brake their psyche and replace it with a secondary personality. At a point further down the road most Targeted Victims are passed down to “lower” Agencies like the FBI and DOJ. They are sent “Intel” for higher secured agencies to “quiet the

or remove them from being a burden in revealing the truth. Humans are connected in a “daisy chain” slave fashion wirelessly utilizing DARPA’s N3 nanotechnology specifically Nano Gel delivery via FEMONANO Plasma laser which can be delivered externally and absorbed through the skin (transcranial) or directly into the brain itself forming (worm like holes) from thermal expansion. During this process the brain matter is removed in a string like fashion replaced by the plasma nanotechnology which is then activated by another bio tuned/coded resonance frequency laser specifically tailored for the targeted individual. This heinous use of “Mind Control” technology literally infuses nano electrodes into the brain and through the blood brain barrier allowing the U.S. Govt operators to electroshock the victim destroying their brain and to blanket slate the victim into a vegetative type state. The nano technology is a transceiver links the Targeted Victims together for a litany of personal and neural network information transfer purposes. U.S. Citizens are literally being “Pieced Out” the multiple U.S. Government Agencies and they include. The government is stealing the lives and individuality of the poor, less fortunate and disenfranchised to give the elected, non elected and appointed few with consent, agreement, disclosure, reprieve, compensation or legal authority:

- 1) The Victims personal memories, visual perception of location, visual thought process (they are also transferred, received and transmitted the same information from others). This technology allow the ability to write or transplant false memories and dreams into the victim
- 2) Cognitive enhancement is the practice for which the involuntary targeted victim is used individually or in conjunction with a group to enhance the neural capacity, cognitive ability, knowledge based and thought process (problem solving or critical thinking abilities) of the output or beneficiary of a neural network. In the earlier days of cognitive science related to electrodes an experiment proved that the output of a neural network benefits from the input. In that case, a genius was on the input and average person on the output. Immediately the output showed obvious cognitive enhancement. Fast forward into today technology (DARPA N3) wireless, non surgical, minimally invasive nano gel/electrodes. The use of said wireless advancement hinders or handicaps the input victim and benefits the output without consent and in most cases unwittingly.
- 3) Victims are used as SUPER COMPUTERS – the human brain does the equivalent processing of 1 Million similar chipsets. In most cases they “blanket slating” to erase that citizens individual short and long term memory and remaining contents of the left lobe or analytic lobe to use in training DCNN (Deep Convolutional Neural Networks), copying or transferring thought process, critical thinking and Meta Data computations to find “Context” in mass surveillance gathering programs utilized by the DOD and NSA. THIS IS NOT CONSENSUAL
- 4) Neural Data Transfers – Some target individuals neural synopsis is digitally cloned against their will and without agreement, compensation, protection or medical release/disclosure. A copy of everything they are as a human being and individual is literally copied to Government employees, children and the neural network outputs. This effective transposes or writes “individualized” data and neural pathway architectures to the beneficiary without the consent of the victim.
- 5) Neural/Cerebral Hemisphere Division – DARPA’s N3 nano technology allows U.S. Govt. Remote Operators and TEAM to literally “slice up” victims neural capacity allowing multiple

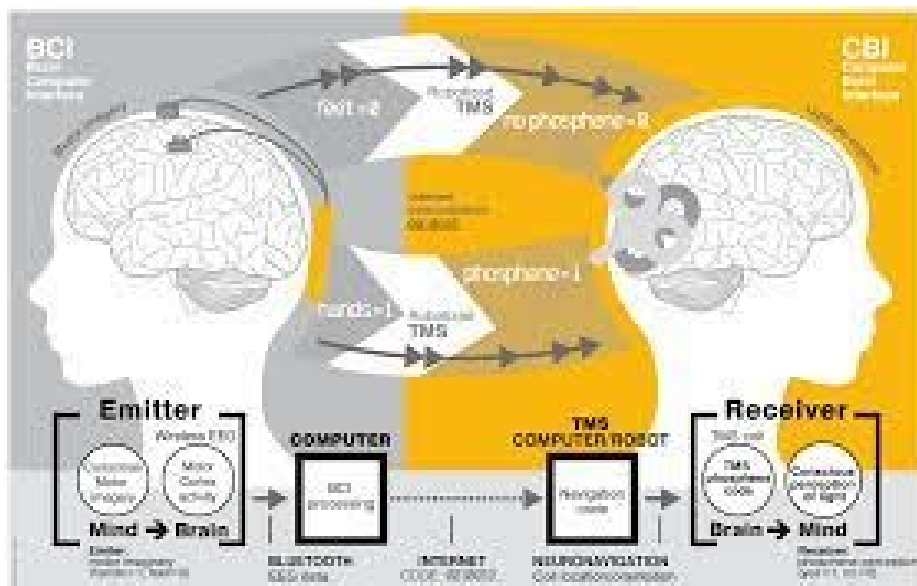

operators, Electronic Brain Link Systems and nefarious Agencies to divide the neural capacity of innocent non consenting U.S. Citizens. This includes utilizing the nano tech to access specific portions of the brain itself. It also allows for the potential of dividing the hemispheres into infinite portions and treating HUMAN BEING like communication relays. This is extremely distributed and disorienting to the victim as they are induced with NON STOP harassment, verbal ridicule and cognitive deficiencies based on the load and pass through electromagnetic energy distribution through them.

### Forced Hive Mind

Forced Hive Mind is also known as the “transhumanist” movement including modern robotics and cybertronics development programs seeded by the CIA. Recent advertisements depicting romance falsehoods of the Internet of the brain for which anyone can access anything upon thought. The issue here is there is NO CHOICE, victims are involuntarily subjected to a hostile “totalitarian” based dictatorship mentality of “Master’s & Slaves” demanding subservience without “free will”. This exposes the targeted victim to intellectual property theft, privacy issues, lack of constitutional protects and forced slavery. In this, reverse “government sponsored pyramid scheme” the input or involuntary slaves are “yoked” or used as think tanks for ideas and solutions for which only the output of the network enjoys.

### FALSE IMPRISONMENT

Combining Neural Prisons (constructs), Forced Hive Mind & Nanotechnology (DARPA N3) including Nano Mesh (Draped Upon the human body and hands – electrocuting the victim), Nano Tape (For Horse Blinders and Neural/Cerebral Division), Nano String (Organ clogs), Nano Fibers (Crystalline structure support/clots, Nano Gel (Neural Electrodes), Nano Sink (Respiratory complications, choking, suffocation and strangulation). Victims are literally imprisoned without due process or sentence mentally, physically and emotionally without assistance from the U.S. Government who has taken an oath to PROTECT AND SERVE WE THE PEOPLE. This treatment rivals NAZI Concentration camps in plain view of society at large. Innocents are DYING and YOU MUST INTERDICT AND STOP THIS SENSELESS GENOCIDE UPON THE AMERICAN PUBLIC IMMEDIATELY OR LEAVE YOUR POST.

## Cellular Destruction

New targeting methods include the use of traverse Scalar waves which are non magnetic and travel faster than the speed of light from the Army's ELF station in Michigan. This technology utilizes DNA bio coded/sequenced directed energy to disrupt DNA structures and effected cells ability to replicate naturally without mutation. ELF is known to cause pain to the victim and based on the extremely low frequency and "bullet like" wave length: it penetrates just about anything, is easy to conceal and isn't often "Investigated" as the source of torture or perceived as a weapon. (most frequency weapons are not considered via weapons by the public although since 1940 the military has continually invested more in R & D and known of their effects on human biology).

Both ELF, ULF and Scalar waves adversely effect the human body in a multitude of ways that have been known for 100 years and the use of DNA Bio directed energy weapons upon the American Public has negatively effected our society in more ways than we can currently account. These ways effect the behavior and health of our population and when DNA bio resonance is used there is no doubt the intent is to DESTROY the victim as that frequency effects NO ONE ELSE ON THE PLANET BEYOND THE VICTIM BEING TARGETED. The ARMY's ELF station in Michigan is a good location to research the combine of EBLS and U.S. ARMY PSYOPS at FORT DERRICK. Remember as well the CIA operates a MASTER EBLS/RNM weapons systems worldwide that has priority over ALL OTHER USA systems.

## Phonon Extraction

Scalar waves have been hidden from the general public for nearly 100 years but are known to cause DNA detrimental damage and disrupt. Combined with DARPA N3 self-assembling "electro static" nano technology it is used to degrade the subjects immune, limbus, endocrine and nervous system while also extracting spliced DNA from the victim, extracting PHONONS which are said to increase a transplant victims cellular health, telomer regeneration abilities and remove an oil like substance found in the photograph provided below and said to be the equivalent of "life force" or fountain of youth used in reversing the aging process. This "oil substance" is said to be much like adrenochrome and explains why the victims are constantly tortured or stressed during the extraction process. This mirrors how children are used to harvest adrenochrome as their adrenal glands produce significant more when stressed or scared. Unfortunately, for this non consenting victim they degrade quickly as their vital systems fail.

- 3) Bio Coded Directed Energy – DNA sequenced Individualized & Tailored targeting specific to 1 person on earth and imperceptible to anyone else. This includes the use of ELF – Extremely Low Frequency and Scalar Waves both Transverse for pain and DNA structure disruption and Longitudinal for harmonious sensation utilized for seduction and influence). ELF is used to transmit and conceal messaging heard in the victims middle ear utilizing their DNA as an Antenna and RELAY as victims are “Daisy Chained” together within varying neural network architectures. Most victims are “one on many” or within adversarial design networks where ROD’s surround or “MOB” non conforming victims.
- 4) Sonic – Directed Energy booms or waves are often directed toward and upon the targeted victims body, organs and brain. These waves can do everything from disorientation to death relative to the frequency amplitude or strength and area targeted. For example: Ryan Michell’s kidney’s were targeted dislodging a kidney stone, his lungs and brain were as targeted causing loss of breath, pain, a hernia tear within his stomach, headaches and possible internal damage/bleeding. These sonic booms are also directed at structures (vehicles and homes) caused pressure variations, noise, equilibrium and structural damage. This weapon has been used upon me causing a Hernia, Head trauma and throughout my neighborhood. High pressure explosions in close proximity including internally.
- 5) Nanotechnology – DARPA’s N3 clearly highlights “some” of the intended uses of these minimally invasive “non surgical” applications including for communication or transceivers utilizing electromagnetic charging and distribution of energy. They are as utilized as neural electrodes both external and within the body and nano gel “stiffness” has proven to more easily pass between the blood brain barrier. These nano materials are distributed by a FEMONANO Plasma Laser which is remotely applied around the victim then activated with a separate nano head and activated by a separate bio resonance tuned frequency laser into the victims eyes or skull. These FEMONANO Plasma lasers also create “mirrors” which carry and redistribute significant electromagnetic energy. They are found in the following forms: Nano Gel, Nano Tubulars, Nano Fibers & Strings (Nile blue + charge, red, black, white & clear), Nano Controllers with carbon circuit boards, nano particles and Nano Mesh, Nets & Tape (For collection, extraction and torture of the victim). Nano gel are applied externally and internally (plasma and nano tech absorbs into skin, organs and blood vessels). External applications are utilized to torture victims: For example: applied to the skin causing electric shocks and burns. This nano technology is self assembling through electrostatic interaction (NG1.5, NG5, Ng14, NG5 and seen in pictures provided in the following transformative states F-actin staining, Nanogeis and Merge)

FEMONANA LASER: Mounted upon Drones, Satellite and thought to have a ground transported version. Witness, Victim and Investigator Ryan Michell would testify that NANOGEL drops were in fact deposited for an aerial vehicle (low orbit satellite or drone) landing upon the neighbors roof adjacent to his back yard. He also testifies to the use of a drone transporting and depositing a large sheet of NANO Mesh behind it in “line of sight” proxy to his residence. This NANO MESH is observed in being used to collect debris or “clean up” targeted victims upon operation closure and to torture victims by draping, wrapping or enveloping them in the same electro static material to electrocute them.

#### FEMO NANO MIRRORS:

This aspect of the same nano technology is used to create “electromagnetic” catch arrays in near proximity of the victims and within their homes so that electro static energy applied by satellite EM is more effective distributed to the targeted victim in higher concentrations. This ensures communication, visual surveillance and “high energy” outputs distributed direction to and upon the victim in inflicting torture tactics or “shock collar” conditioned operations. Most victims are told to comply or suffer. When the do not submit they are tortured, electrocuted, choked, burnt and trans cranially induced with TMS to “elector shock” or erase memory. This

technology is also used to disrupt electronics by means of electro static discharge or electro magnetic pulse.

#### HALOGRAM ADDITIVE:

This nano technology material is also used in the enhancement of 2D projections within the victims mind and translate into the equivalent of 3D micro textured (hot,cold & material feeling). It also attributes to the “Cameras” victims claim to have in their eyes, around their face and body. It’s also used as mirror to distribute energy, information and collect data and images as a “relay” to and from the array in use.

#### TRANSFERS:

ROD’s are actively attempting the blanket slate targeted victims and transfer alternate consciousness upon them in place of the original. This is the specific case with a NAVY Lt. who partakes in hologram rapes within the EBL and has attempted to “transfer” himself upon Ryan Michell after intense torment and torture by the Team of operators.

#### IMPORTANT POINT:

All ROD’s (operators) are literally brainwashing, erasing memory and conditioning victims to be accept servant roles to fulfill “false flag” domestic terrorism and slavery roles. This includes HUMAN TRAFFICKING, Manchurian Style TERRORISM, SLAVERY, HUMAN HARVESTING (of physical, neural and human assets) achieved through torture, conditioning, fear, threat and duress and disorientation. Not to conclude death – Nanotoxicity, Suicide Without Consent, Congestive Heart Failure, Heart Attack, Stroke, Brain Bleed, Internal blockages and bleeding, Respiratory Distress or clogging of the lungs. Blood born diseases, sepsis, microbes and DNA disorders and neurological disorders (caused biologically via invasive NANO Tech, Microbial Attack and PTSD from PSYOPS torment and torture over long periods of time). Regarding PSYOPS remember victim CAN NOT TURN OFF the Visual and Audible induction of negative stimulus. Nor can they stop the barrage of physical torture caused by the NANO munitions, Microbial damage and biological effects of this warfare upon them.

VICTIMS NEURAL SIGNATURE AND DIGITAL CLONE ARE BECOMING USED WITHOUT THEIR KNOWLEDGE AND CONSENT: The most invasive and difficult to detect from of Neural Signature Theft, Abuse and Manipulation comes in the form or subliminal/subconscious messaging, cloning a victims digital self and injecting it in an AVATAR representation within Neural/Virtual constructs. This essential dilutes the individual cerebral potency of the victim and makes them susceptible to a variety of modification, manipulation and grooming technologies the can literally utilize them as “PUPPETS” who feel from their perspective they are making decisions on their own behalf. This heinous manipulation of “free will”, “free choice” and the right to decide what is best with your brain, your body, your opinion and your tastes can literally shape the perceptions of individuals, groups and families. These tactics are employed upon Targeted Victims Families and significant others are the victims are isolated and their loved ones are preyed upon and victimized without their knowledge. This is the most “Convert” and disgusting form of neural grooming employed by the CIA, DARPA, NSA and U.S. Military when MK Technologies (Mind Kontrol) and capabilities are present within Remote Monitoring

weapons systems. Consider this truth: By creating virtual clones or a SIM City graphical user interface more U.S. Government employees can easily navigate, conceptualize and engage the victims family and friend tree. This is the construct used against the victims as well as they see family members, significant others as projected through their occipital lobe along with the audible misrepresentation of their voices heard cochlearly and imperceptible to anyone else. The truth nefarious actors playing this wicked scheme upon innocent victims are ROD's within communication centers and automated programs utilizing RECON INTEL collected about the victim and their families over time. This makes it extremely difficult for the victims to find support or help anywhere as they are "boxed in", further irradiated and diseased daily and induced with blanket slating techniques including "electroshock" neural therapy by DARPA's N3 nano gel, mesh and string to erase memory and make the victims vegetables and a shadow of their former selves.

I RYAN P. MICHELL, have suffered these exact attack which is still ongoing and noticed sizable differences in my ability to function normally and at a high cognitive level. I have always been near genius, creative, self sufficient and brilliant when it comes to assessing problems and finding solutions. Today I find trouble in getting out of bed, concentrating, focusing on tasks I once accomplished with ease that most find difficult. The U.S. Government PSYOPS in conjunction with the CIA, NSA, DARPA and U.S. Military is erasing who I am and piecing me out the their D-wave servers, Intelligence community and localized Gang stalking HUMIT Program. This is not and never has been consensual and is heinous treating victims like cattle.

HIGH PROFILE TARGETS LOCATED WITHIN THE CONSTRUCT EBL (Electronic Brain Link System):

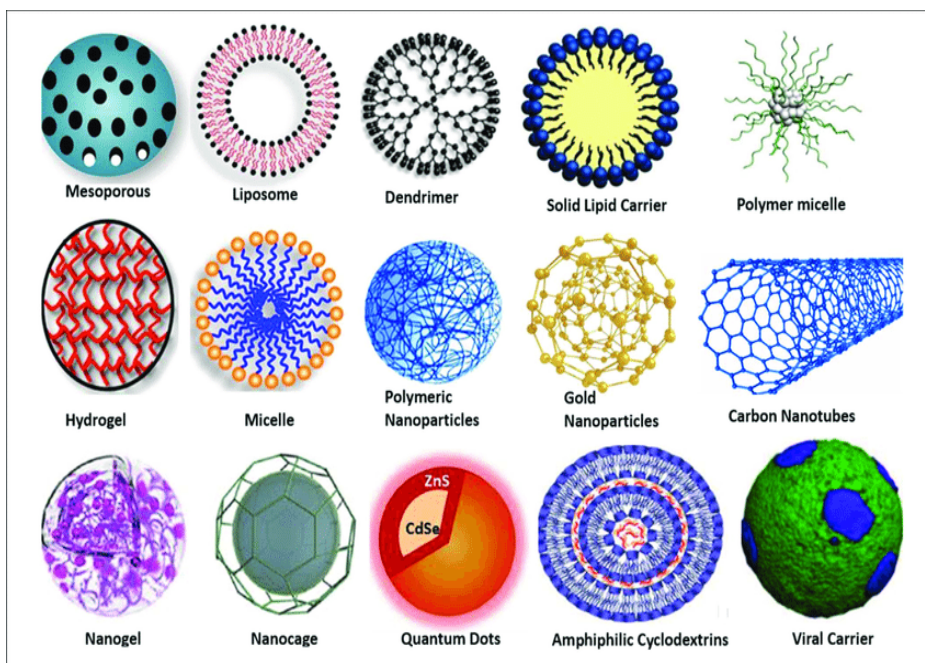

President JOE BIDEN, Vice President Kamela Harris & Madam President JILL BIDEN

I would testify under the penalty of perjury that they are and have been targeted and are being neural manipulated by the U.S. Govt Intelligence community by the same weaponized RNM with DARPA N3 transceiver, electrodes, mental and emotional state MK capabilities. I reported this 3 times to the Secret Service without response or reply. Based the High Profile Targeting behavior, responses to tough questioning and cognitive issues I am positive this is being actively covered up by the same TEAMS of operates targeting me based on my ability to abrogate their security protocols and back trace the neural network. Not just visualizing their digital clones but locating the source of the EBL (Langley) and 10 CIA Neural Cognitive Specialist and Analytics with knowledge of the targeting of POTUS. I can ID this actors in FACE (general names also used frequently to cover original findings ERIC, SARAH and MICHEAL). I can personally ID many more high ranking officials within the Intelligence Community with knowledge of this unconstitutional practice and the effects upon victims. Including: Micheal Cohen (and his family), Mr. Burns, Mr. Brennan, Mrs. Haspel, Mr. Esper, Mr. Clapper and many high/lower CIA members and field operatives involved. Various members of the ARMY, NAVY, AIR FORCE, MARINES and SPACE FORCE.

This does not exclude the FBI's admission in covert involvement in me & my significant others criminal infringements upon our rights as part of a "Gang stalking" unit and actively concealing the truths we have voiced and pleaded for assistance since the beginning (roughly 2.5 years

ago overtly attacking and 6 plus years prior with covert RNM). I have lost the hair on my head, experience bone and tooth decay, tinnitus, phosphenes, headaches, cancer, cognitive impairment and torture (mentally, physically and emotionally). My case is well documented locally and federally with over 50 complaints, research and facts presented to the America Public as a Victim, Advocate and Cognitive Science Investigator of a self funded NON PROFIT and CISTECH.INFO. I have not been contacted by Law Enforcement to date referencing my torment only in relation to a counter “meet and greet” meeting to fish for malicious prosecution options related to Special Agent Phillip Bates of the JTTF and U.S. Attorney Kristen J. Brook involved in my torment as mention by themselves. I provide the COUNTER INTEL STING video at CISTECH.INFO/FBISTING. THE FBI IS THE COVER UP ENTITY MUCH LIKE LAS CARPETAS.

Between all weapons systems, RNM grooming “mental & emotional”, NANO additives, Microbial additive, Spore additive and ROD’s ill will there is NO DOUBT OF INTENT TO KILL, POISON AND CONTROL AMERICAN CITIZENS. Radiation, Nanotoxicity, Psychological Torment, NANO induced electromagnetic torture, poisoning of the blood and body with polymers, heavy metal particles, Microbial Attack, Fungus Attack, extreme pain, stress and ISOLATION NO ONE CAN ARGUE OR NEGATE THE TRUTH – I HAVE SAMPLES, PROOF, ELECTRONIC EVIDENCE, DIGITAL EVIDENCE, IP TRACE ENVIDENCE IN MY POSSESSION AND MY LIFE IS AT STAKE. I AM SICK AND LITERALLY DYING FROM THESE ATTACKS. THE ROD’S KNOW THIS. THIS IS A U.S. GOVERNMENT ASSASINATION ATTEMPT NOT ONLY OF MYSELF BUT MILLIONS O F AMERICAN VICTIMS AROUND THE COUNTRY NOW.

# NANO MESH - CONTROLLER

Developed by DARPA used by the CIA & U.S. Military to torture Targeted Victims  
DNA CODED DIRECTED ENERGY MUNITIONS - SEQUENCED TO TARGETED VICTIM'S BIO RESONANCE

Transparent Gel like  
film and board

Carbon Circuit Board

**TRANSPARENT** - Very difficult to see with the naked eye, detect or defend against by the targeted victim. Blends in with surrounding environment, skin and background. Utilizes imaging data from the attached surface to refract a relative pattern, concealment colors and even shadows. It then projects the rendering upward as camouflage to conceal and disguise. The imaging technology is the same used in deep space imaging satellites using RV sound waves to render and create images from deep space. These nano mesh patch seek the DNA coded victim or is R O D they are maneuvered and attaches to skin in designated area (arms, legs, face etc) and is absorbed into skin. Delivery and application upon victims skin is rarely seen, recognized or felt initially. Later sensations such as Pain, TMS, the feeling of gravity, feeling of being magnetized, feeling of compression or squeezing, the feelings of contraction, objects moving around you is all from this nano mesh. It comes in a variety of sizes from patch to full body (torment victims or special forces shadow suits). Coupled with malice ROD's they remotely impose a multitude of torments and physical torture upon the victim 24/7. Victims suffer a living nightmare. This nanomesh technology utilized opposing electro-magnetic fields to move and levitate or float.

**USES:** Nanite Controller, Communication - transceiver, audible, visual (hologram display or hallucinations), Camouflage, TMS (kinetic collection & Distribution to erase victim memory), Biometric data collection, Vital collections, Microtouch (electromagnetic shocks - highly conductive), Detoxification, Deliver of Warfare Agents, Beacon for Victim location and targeting bulleye of electromagnetic munitions, Extraction Controller for Nanite Clusters delivered in separate payload to remove & destroy organs, tissue, DNA & extract Phonons (nanites delivered in droplet format), transmission of information and energy from victims along neural network daisy chain to output beneficiaries, Medical testing and victim data collection, energy pulse discharge to disrupt electronics or short circuit boards.

This is an illegal and heinous "Gain of function" slow kill program inflicted upon U.S. Citizens by tax payer funded technologies intend to protect and secure our nation not create distress, torture, destruction and terrorism upon society. This non consensual Human Experimentation & Inhumane treatment of innocent civilians is an International War Crime violating the Nuremburg Code. All U.S. Govt officials, employees and contractors involved must be brought to justice for War Crimes.

Example: Victim unknowingly being "woken up" upon contact with skin to warfare grade DNA "Hello" psyops HUMIT. The living nightmare begins without refuge or U.S. Govt help.

# NANO GEL - NANITES (Part 2)

Developed by DARPA used by the CIA & U.S. Military to torture Targeted Victims  
DNA CODED DIRECTED ENERGY MUNITIONS - SEQUENCED TO TARGETED VICTIM'S BIO RESONANCE

Delivers & Collects Multiple  
Nano Types For Multiple purposes

Nanites Encased Transparent plasma Gel - malleable

TRANSPARENT - Requires 4K microscope or electron micro to view gel encompassing nanites. Gel has a light refractive coating for which must be removed prior. They are highly conductive and consist of supramolecule assemblies, victims notice clear pustules that are bioluminescent emit from nano gel exertions of the skin in affected areas. Also look for multi colored fibers (associated with Magellons Disease but it's in fact nano tech) or tubular shapes as well (view pictures or view on skin with a blacklight), U.S. Govt targeted victims suffer from the affliction of multiple weapons systems as "lab rats" including both biologic genetically engineered pathogens, amebas that are parasitic in nature and mechanical variants that are circular, cylindric and tubular nanites (metallic & natural colored) all programed to serve their purpose (delivery, collection, disable, extract, submit, destroy and kill the victim with littel attribution). This nanotech is viewable upon and with targeted victims skin. Very difficult to see with the naked eye, detect or defend against by the targeted victim. With a 1400x microscope and beyond some become externally visible. Areas generally most afflicted include eyes, face, head, arms and brain. Nano mesh for transcial magnetic stimulation, nano gel strings and nanites are thought to be utilized as implant transceivers needed to control victims neural hemispheres, voluntarily, involuntary and physical motor functions . Droplets are often used as overlays upon the victims eyes to induce hallograms enhance projection emitted from the victims visual cortex, cause blurred vision, disorientation and temporary blindness. Internal nanites cause cellular damage, extract dislodged live DNA samples for your phonons from traverse scalar waves disruption. This is collected by the nano patches and delivered to the slaves beneficiary. Malice R O D's produce a visual Symphony of guilt ridden torment upon victim while they are being yoked or harvested of their human capital assets, groomed, brainwashed, memore erased and drained of who they were previously mentally, physically and emotionally. These are classified U.S. Govt technologies operated by those acting or empowered in an official capactiy .

**USES:** Nanite Controller, Communication - transceiver, audible, visual (hologram display or hallucinations), Camouflage, TMS (kinetic collection & Distribution to erase victim memory), Biometric data collection, Vital collections, Microtouch (electromagnetic shocks - highly conductive), Detoxification, Deliver of Warfare Agents, Beacon for Victim location and targeting bulleye of electromagnetic munitions, Extraction Controller for Nanite Clusters delivered in seperate payload to remove & destroy organs, tissue, DNA & extract Phonons (nanites delivered in droplet format), transmission of information and energy from victims along neural network daisy chain to output beneficiaries, Medical testing and victim data collection, energy pulse discharge to disrupt electronics or short circuit boards.

Ryan Michell – Has these materials in possession related to personal blood, tissue and skin sample as these biological, neurological, chemical and psychological weapons have unconstitutional been unleashed upon him not including his volunteer advocacy by interviewing hundreds of victims with the same ailments. Please further note a simply search for targeted victims and gang stalking victims accounts for at least an additional 1,000,000 plus U.S.

Citizens actively affected by the same symptoms, similar experience and negation of their own civil rights and liberties without legal authority, consent, due process or reprieve from federal law enforcement. Ryan Michell will attest that these DARPA N3 developed technologies have been systematically used to torture him by means of electrocution and severe pain across his body including his head, face, eyes, hands, throat, mouth, neck, arms, chest, back, genitals, rectum, legs, knees, feet, brain and internal organs etc. (both externally & internally). This is also true with Nano Mesh and Nets which have been used nefariously to drape over his face, eyes and entire body causing great discomfort, pressure, manipulation and significant increase in his natural magnetic field (attracting debris, using his body as a magnetic filter and making him highly electrostatic which disrupts electronics when grounding out. ROD's also purposely utilize these toxic materials (known as Nanotoxicity) to contaminate his food nearly every meal and drinks (in effort to make him sick and causing a bitter taste, stomach pain and gagging reflex restricting ability to nourish himself). This same mesh and net has been purposely forced down his throat in effort to choke him as ROD's make menacing reference to "water boarding" him, this material has been used to line his stomach causing great discomfort, a hernia (tear in stomach lining) not excluding being injected into his nose and air ways restricted oxygen intake.

This nano material and the components line his dental implants (nano tech manipulates matter biological, plastic increasing toxicity as the nano mesh lines the permanent implant etc. It may also be plausible that U.S. Patent Number US 62339705 B1 applies to this victim beyond the obvious previous of foreign nano particles, gel, mesh, net and tubulars via an Intra oral electronic tracking device that can be implanted in teeth, dentures exists) This is mentioned as it is difficult to confirm without removal and dismantling his teeth and the nanotech referenced and in use as an additive to the RNM provides similar capability referencing U.S. Patent Number 7629918 Raytheon Company Weapon with integrated targeting system to locate target, damages, disrupt electronics, biological entities and physical structures. The Raytheon weapons system may in fact best describe this victims overall experience although it is important to not Targeted Victims across the United States and world are afflicted with different weapons systems, in varying degree and technology that provide similar effects or result. Example is the use of US Patent 6001991A highlights technologies that remotely acquire individual brainwave signatures and allows for the use of Remote Neural Monitoring of words, phrases, vitals, thoughts, visual perception & injection including brain activity. This exact result can be accomplished utilizing multiple Wave type and methods including RV or Rattle & Vibrate, RF or Resonance Frequency, Satellite or Electro Magnetic Transmission and MK or Mind Kontrol (aka Scalar Waves both transverse and longitudinal).

Further nonconsensual intrusion of this toxic nano material has been felt and noticed in this victims jaw line, lungs, intestines and testis to torture and submit him into silence, subservience, fulfilling the order to "kill himself" or commit suicide without consent, hurt other people, commit acts of violence upon others as a scape coat excuse and reason for the referral to the TDSB NIS Code lists, make false admissions to crimes not committed, concede without legal authority or jurisdiction and accept the will of another he does not recognize as a legitimate authority based on the shady techniques employed and methods used through his torment. This material is used much like that of TMS (Transcranial Magnetic Stimulation) in PTSD victims to erase

memory, slow cognitive output abilities by draping the nano mesh upon his cranium or nano gel within passed through his blood brain barrier within his cranium and upon his brain. The electromagnetic radiation induction mirrors the heinous use of electro shock treatment. This process is often used upon Mr. Michell in attempt to blanket slate him, transfer his neural synapsis to other unknown U.S. Government personnel, cause confusion, allow for navigation room for the nefarious ROD's to implant a false narrative or convince him or falsehoods, forget details related to his trauma, cause fatigue and erase vital personal identification details related to the individual involved in this ongoing violent crime.

This is also utilized to administer false admissions the creation of multiple neural signature output recordings simultaneously to multiple "Teams" of neural ROD's working to subjugate the victim. This technique was designed confuse, distract and false the accuracy and legitimacy of the victims experience. This tactic is utilized in justification of ongoing criminal use of legal interrogation methods upon U.S. Citizens, concealment tactics, deception or EBLIS origin and ROD intent. The ROD from each "TEAM" occupying a separate cochlear middle ear region or neural hemisphere (right or left) initiates separate conversations with the victim simultaneously. The victim general has a dominate preference normally associated with their dominate hand. As the victim sides with the dominate cochlear region to process audible information the opposing Team unlawfully, non consensually and cowardly utilizes the opposing hemisphere to rewrite logic processes, critical thinking, judgement center or fraud misrepresent the victim with the "slave" forced Brain to Brain Interface and HIVE minded network. This general creates hysteria within the victim by design which is nearly impossible to describe to medical providers. Please reference MK Ultra "Brainwashing" tactics and methods used to induce psychosis, paranoia, distress and wipe the memory of Manchurian Candidates after heinous reprogrammed "False Flag" missions. Manchurian Candidate Examples Include:

Aaron Alexis

Esteban Santiago

Stephen Marlow

These are just a few of hundreds of related cases ignored by the DOJ, FBI, CIA and DOD for they all have the same conclusion induced by U.S. Government Psyops, illegal Human Experimentation, illegal use of weaponized RNM intended to disorientate, manipulate, coerce, control, modify, groom, condition and negatively effect the behavior and actions of the targeted victims. The same illegal HUMIT programs have killed millions of Americans over 30 years and are admitted by both the Clinton and Obama administration. The difference here is WE HAVE CONCRETE PHYSICAL EVIDENCE AND PROOF IN HAND, COMPLAINTS AND WITNESSES TO ATTEST.

They initiate conversation upon the opposing lobe. In such a case to join a specialized CIA CHS unit in cooperation with the FBI as suggested by the ROD's. Humbly this same material along with the intent and verbal commentary was used to sexually abuse Mr. Michell non consensually in both sodomizing him, injected the gel into his penis and under electrocute him under is testis. It has also been used and suggested in the non consensual rape of his significant other. This torture has gone one for more than 2 years and nano residue can be found all over his home, yard, vehicle, significant other and himself. Law enforcement including local and FBI JTTF Special Agent Phillip Bates have not assisted in any shape, form or fashion. Not even contacting to interview Mr. Michell as a victim or witness.

Many theories exist as to why these poor souls are literally destroyed mentally, physically, financially and emotionally from referrals from the FBI to the TDSB/NIS Code lists to human capital harvesting purposes. General commonalities include above average intelligence, lower income, uneducated, introverted, veterans or family military service, predominately women and often seen to be incapable of obtaining private legal representation, understanding complex technologies or fighting back. This heinous burden is the equivalent of a death warrant issued and executed by U.S. Government employees and contractors acting in an official capacity on behalf of the United States Government as they initiate, facilitate, participate, incentivize, monetize, monitor and maintain the neural networks, infrastructure and multiple weapons systems used to gentrify these innocent citizens. These weapons systems include.

Memory manipulation, blank slating and rewriting. This technical and intentional infusion and coercion ultimately changes the behavior, thought process, beliefs, desires and actions of the victim. This is used from grooming, conditioning to isolate victims from loved ones or significant others. Instill agitation, paranoia, ill feelings, fear, suspicious and angst toward overtly targeted victims no withstanding a litany of additionally purposes. It is generally used on Targeted victims significant others, wives and family members to further isolate the victim from obtain help or gaining traction in their quest for justice.

Victims are aware of talk through or ventriloquist framing, setups and intent to destroy them by R O D's working with U.S. government communication centers and allegiant proxy confidential human sources or gangstalkers localized enacting street theater gh`1, emotional and mental state modification. Thought to text or synthetic mind reading, Visual thought processes, dreams and live location visual perception access. Image, video and visual narrative induction in dreams or while awake. Memory manipulation, blank slating and rewriting. This technically and intentional infusion and coercion ultimately changes the behavior, thought process, beliefs, desires and actions of the victim. #### Nanotechnology as a Weapon of War

In general, nanotechnology is the manipulation of matter using specialized tools to create new structures and materials with at least one dimension measuring between 1 and 100 nanometers. At this scale, materials have unique physiochemical properties, and it is this aspect of nanotechnology that can either create wonderful benefits for humanity or potential weapons of war. Military spending on nanotechnology has been reported by several countries, including China, France, India, Iran, Israel, Malaysia, the Netherlands, Russia, Sweden, the United Kingdom and the United States. [2] Breakthroughs in nanotechnology have already led to new developments in camouflage, stealth and armor, [3] and this development will continue. However, there is also continued concern for the misuse of nanotechnology. Civilian and military research on emerging technologies has been overlapping, which has caused some to fear a reduction in transparency and that nanotechnology could be misused to make weapons of mass destruction. [4] Weapons made with nanotechnology (nanoweapons) could potentially be found in five different forms:

#### Nanotech and imaging microbial

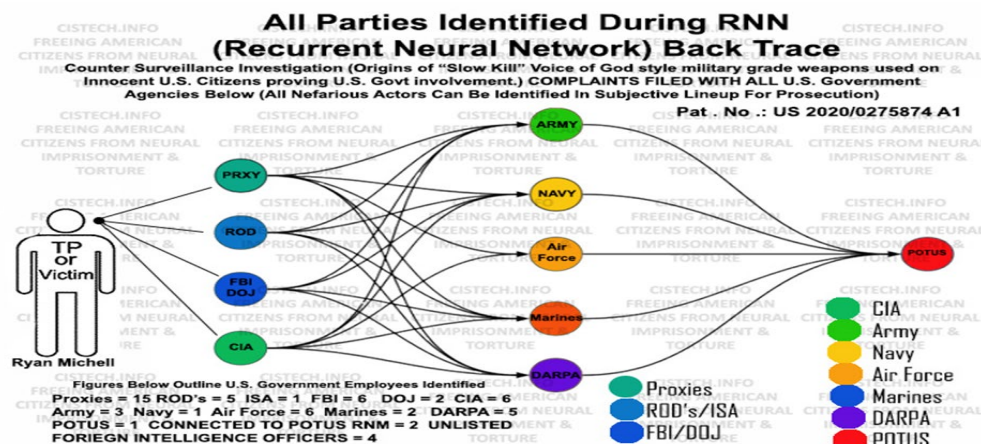

There is already a societal awareness of the growing impact of nanoscience and nanotechnology, with nanomaterials (with at least one dimension less than 100 nm) now incorporated in items as diverse as mobile phones, clothes or dentifrices. In the healthcare area, nanoparticles of biocompatible materials have already been used for cancer treatment or bioimaging enhancement. Nanotechnology in dentistry, or nanodentistry, has already found some developments in dental nanomaterials for caries management, restorative dentistry and orthodontic adhesives. In this review, we present state-of-the-art scientific development in nanodentistry with an emphasis on two imaging techniques exploiting nanomaterials: optical coherence tomography (OCT) and photoacoustic imaging (PAI). Examples will be given using OCT with nanomaterials to enhance the acquired imaging, acting as optical clearing agents for OCT. A novel application of gold nanoparticles and nanorods for imaging enhancement of incipient occlusal caries using OCT will be described. Additionally, we will highlight how the OCT technique can be properly managed to provide imaging with spatial resolution down to 10's–100's nm

resolution. For PAI, we will describe how new nanoparticles, namely TiN, prepared by femtosecond laser ablation, can be used in nanodentistry and will show photoacoustic microscopy and tomography images for such exogenous agents.

Diligently adversarial defamation, assassination persecuted

My government has attacked me with psychological, neurological, chemical and biological warfare with the intent silence me, enslave me and ultimately kill me as to not reveal the truth. Throughout this entire ordeal, I have lost almost everything I've built, earned and been blessed with and although I have reached out to almost every U.S. government agency for help and assistance I have been isolated and left alone to suffer mentally, physically and emotionally. I have found temporary reprieve in listening and assisting other targeted victims across the nation experiencing the same abandonment, loneliness and torture. Much like them my family and significant other have been conditioned and groomed to justify my torment as conspiracy theory or mental illness. I have worked diligently against great adversity and tribulation to find and expose the truth and use of multiple weapons systems in use to disorientate, disable, modify and destroy myself and countless other American's in need to prove the use of weaponized remote neural monitoring with emotional and mental state manipulation capabilities, cochlear heterodyning looped communications, dna bio sequenced and tailor direct energy, elf transmission of traverse scalar waves, human capital harvesting, femtonano plasma laser, nano gel, nano mesh, genetically altered microbes and forced brain to brain, adversarial neural networks including hostile operators intent on defamation, cognitive degradation, mental impairment, malicious prosecution, exploitation and extortion all of which work in an official capacity for the United States government.

Upon my death it be known this is an government sponsored assassination included reducing me to former shade of my true self. I have been tortured, poisoned, threatened, ridiculed, sexually assaulted, abused, human trafficked, non consensual experimented upon, framed, misrepresented, bullied, subjugated, persecuted and left for dead. The worse part in knowing with 100% certainty it's my government doing it in a country I love and never considered such a thing possible. God bless America and all those fighting for justice when the rest of us were left behind. I can personally identify employees of FBI, D O J, C I A, Army, Navy, Air force, Space Force, Marines and DARPA who have active knowledge of United States citizens being and my personal situation of being targeted, tortured, poisoned and issued the equivalent of a death warrant.

FBI: As shown in our counter sting operation upon the FBI Cognitive Investigative Services proves the FBI not only has knowledge of the active illegal use or unwarranted surveillance violating FISC 702 and the lack of full disclosure regarding the full capabilities and application of these invasive technologies effect upon U.S. Citizens but it is actively covering up and participating in the operation. Beyond recent developments in the Durham report proving the FBI surveillance misuse of similar technologies in over 228,000 illegal seek and peeks, victims of this violent crime attest to be threatened with death, malicious prosecution, torment, physical and electronic harassment by allegiant Confidential Human Sources, Covert Agents and JTTF related agencies connected to its official Gang stalking Units to include the use of ATIX and RISS. Plausible Deniability is not an acceptable legal defense in failing to protect, serve and properly investigate these cases. Obstruction of Justice, Dereliction of Duty, Criminal Neglect and Complicity in a conspiracy much like the admissions made and actions during the "Los Carpetas" era regarding covering up Political Dissidents. Remote Neural Monitoring to include Cochlear Paradigms, Emotional and Mental state manipulation, modify and psyops tactics are obviously far from legal and reported by tens of millions over the years. Proof in acknowledgement and admission are also made by watching our counter intel operation upon the FBI at: [www.cistech.info/stingonfbi](http://www.cistech.info/stingonfbi)

In this specific case: Ryan Michell started received illicit calls much like that of Jennifer Destefano. The first caller suggested his daughter had been kidnapped. The second call suggested a woman was being held and required his assistance to retrieve. Both calls were reported to Phoenix PD 911 for the record. Shortly after the victim began being tormented with this staged Psyops slow-kill program (as stated by the Remote Operators resembling similar Military programs named Voice Of God, Hello, Good Night and Good Bye). The victim experienced Cochlear Heterodyning/Paradigm in which Remote Operators threatened nightly Home Invasion, Sniper Fire, Being, Framed Murder Suicide, Rape of his significant other, daughters, murder of his family, Cartel hits, extortion, exploitation and conviction of crimes for which he was not guilty. He experienced "Mob Theatre" for which he has threatened nightly by 2 new residents below his apartment, strangers snooping around his truck, following him, parked out his mothers house, missing items, harassment of his significant other, strangers approaching him to begin unusual conversation and finding wireless cameras in there apartment. All of which were report to Phoenix PD and Apartment management and evidence was submitted. Management suggested in was a maintenance worker and denied the opportunity to renew their lease without ever missing a payment over 3 years of tenancy.

Over time and upon investigating the purpose and origin of the unlawful and disturbing attacks upon himself including strategic maneuvering the ROD's cochlearly introduced themselves as covert FBI agents working under a special unit and program. They insinuated over many months that he join the FBI and continued threats. The victim adamantly declined and skill does to this day based on the obvious abrogation of his rights and civil liberties. Not long after higher up's within the FBI and DOJ introduced themselves as Special Agent Phillip Bates and US Special Prosecutor Jennifer Brook. They attempted to smooth the victim over introducing other officials including Director Wray and a special operations PIT BOSS perceived as working for the CIA. Again Mr. Michell declined the proposition to work for and target fellow Americans based on the lack of justice rendered him and principal of furthering the practice upon others in the same fashion. He was and still is continuously threated, tormented, driven into insolvency, isolated from family and his significant other.

Highlighting some of the most disturbing events and based upon the unsettling nature of not understanding little known "classified technologies" generally used for warfare purposes only the victi

continued to investigate the purpose and truth behind this constitutional anarchy. Over time the stress caused a rift between himself and significant other and he was asked to leave their residence (at the time the victim was unaware his significant other was being Remote Neural Monitored covertly utilizing subliminal and subconscious messaging including mental and emotional state modification MK technologies.) Upon residing in a hotel it was threatened that his significant other would be violently raped and murdered. He was told Agent Bates deserved an opportunity to be happy, establish a relationship and have a child with her. He called to learn she was in fact heavily sedated medically – noting the difference between inebriation and her current state. Days later she did not recall the evening in question and other significant details they experienced together “short term” memory lapse. Upon his return she questioned him as to if he had placed something in her wine. The perpetrators confirmed she was violently raped, blanket slated, pregnant by the rapist (insinuated as Agent Bates or one of his Gang stalking Unit Perpetrators and under their implicit mind control. Her mental state has since been constantly aggravated, disconnected and mimics the ROD’s suggested verbal commands to the letter reinforcing the realization she is in fact being manipulated remotely (ROD’s also RNM his Mother, Father and Daughters). They ROD’s suggested having a RAPE Tape and later a STAGED RAPE TAPE suggested as a rouse and also to involve the victim himself to hold over his head as a form of extortion. It has been asserted Agent Bates is in fact his significant others operator and/or his connection with the JTTF linear agencies allows him access and suggestive influence upon her. The victim has since obtained a variety of STAGE CG (Computer Graphic Enhanced) video shorts (in possession). Based on a frame by frame analyze numerous authenticity issues exist. It is obvious a majority of the “shorts” are DOCTORED show Green Screen frame insert, Time variation mismatches from the video shown date stamp within the file folder and visual date stamps withing the shorts. The time variations are also indicative of being produced as they are similar staged scenes. The camera position, angles of view, staged furniture placement, repeat of the same scene (even though the motion sensor of the camera fails to activate upon return of the figure in the scene. Further, the “actor” or impersonators in the scene are not the victim even though this is portrayed as such relatively well. Well analyzing frame to frame the CG effects clearly show the use of editing technologies the victim do not possess. Further shorts show the presence of items not owned by the victims or within their apartment and the obvious “voice over” work and use of digitized voice monitoring technologies to create similar likeness to the victim including older techniques such as “word by word” parsing (both the digital replication attempts and parsing are fairly obviously). Lastly the verbiage used by the voice over producer does not match the vocabulary of the victim as recording upon the original Remote Neural Monitoring profile matching Mr. Michell Neural signature which is a “finger print” unique only to him and can not be spoofed unless the ISA spreads it upon other beneficiaries upon the neural network.

#### ADDITIONAL EVIDENCE TRACED TO GOVT. COVERUP –

- 1) Valentina Sysa’s Cox internet service account linked to home address 4513 E. Tanglewood Dr. Phoenix, AZ 85048 “pings” or relays through and back from GPS websites like the ATF upon a report being sent to address 4306 Woodland Dr. Phoenix, AZ 85048 without legal authority, logical reason or approval on behalf of account holder. Perpetrator threatens Ryan Michell (V. Sysa’s significant other with framing him for accessing illegal child pornography websites and a string of additional internet based fraud and crimes. This “pass through” home is believed to be a CIA relay house and they that is extorting both R. Michell and V. Sysa unjustly with these fictional crimes (Threats include Murder, Rape Coverup (Again), Bank Account Fraud, Gun

Manufacturing, Espionage, Human Trafficking, Cochlear harassment, ELB (Electronic Brain Link System) mismanagement, prostitution, Credit Card processing fraud, tax fraud, drug dealing, targeting POTUS (R. Michell reported the FBI covert team for this 3 times by means of weaponized RNM with emotional and mental state microwave munitions and nano technology munitions), involve involvement in organized crime "The Vampires or Serpents" (R. Michell reports here that the FBI Covert Team lead by Special Agent Bates, U.S. Attorney Kristen J. Brook, JTTF Phx-Gms, CIA "clean up team", ATF, Army Psyops (Derrick), Navy, DARPA, Homeland Security, Airforce and Marines who are all individually identifiable have committed mutiny, treason, domestic terrorism and are organizing a COOP in recruiting "Militant Group" of Domestic Terrorists within the Phoenix Area under the guise of National Security and cover of the United States Government. They are utilizing various means of extortion, exploitation, harassment, framing, coercion, manipulation, threats of fear and distress by use of weaponized RNM (Neural Signature), Bio Directed Energy/DNA Bio Resonance Frequency although with Nano Biological, Chemical, Neurological and Psychological torture (psyops), drugs (DMT & DNT), Neurotoxins, Nanotoxicity, Emotional & Mental state manipulation (microwave frequency), torture – extreme bodily injury, pain through Electrocutation (TMS – externally electrocuting skull/brain, genitals and body parts and internally via electrodes placed in various portions of the brain. Employing multiple operators and teams to separate the targeted victims neural hemispheres in order to blanket slate (brainwash) and groom Manchurian style facilitators of False Flage and domestic terrorist events. These recruited and conditioned individuals are referred to as the "Taken" as they are essentially driven and controlled by Remote Operators in communication centers commanding "ground units" of allegiant proxies. These proxies seem to be neurally dependent; having diluted pupils, blank stares and be morally and ethically bankrupt in the fulfillment of their mission.

- 2) Business email address [Ryan@profitaccel.com](mailto:Ryan@profitaccel.com) has been compromised and utilized by nefarious operators working in an official capacity for the U.S. Government (believed to be FBI) and can be traced back by the provider/host Microsoft which was acquired through GODADDY.com. They are portraying an official role in Ryan Michell business development startup company called Profit Accelerator and contacting Cognitive Science Abuse related entities and people like Steven Brennan (Former CIA Director) while emailing related materials without consent or permission of R. Michell (while falsely acting in his capacity).

Neuro-Electro-Magnetic Frequency Weapons

One of the tool used by the military in behavior modification and mind-control is the remotely operated electromagnetic frequency weapons. These weapons use microwave, ELF (Extremely Low Frequencies)

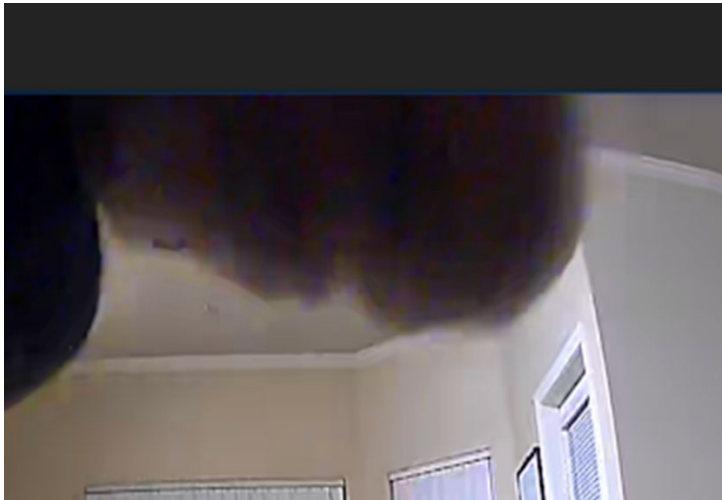

3) Multiple “Doctored” Videos have emerged showing the used of “Computer Generated” graphics; specifically the face of Ryan Michell and his digital voice monitoring generated profile. This is used in “voice of editing” and reproduction of multiple security camera videos. Upon review of the videos in a “frame by frame” manner, obvious imperfections and graphically distortions are evident in the facial area of the figure present. This later reveals the true identity of the actor “staging” the videos. Another obvious blemish is the placement of the camera or “filming angles” which are in usual places for a natural scene to be acquired. Also the constant camera movement with the actor as they carry around the camera indicates a “staged attempt” to reproduce and frame Mr. Michell. A closer look at the footage shows a “blue hue” around some of the camera shots: This indicates the use of Darpa’s N3 nano technology: specifically nano gel which is used for displays and HD holograms and nano mesh (block pattern) used for wrapping the body and face to distort or reproduce another facial image (in this case Ryan Michell). This nano tech is used as camouflage and for holograms (amongst) other applications such as communications etc. Further imperfections include the video time and date stamps which do not match up and are significantly off from the present or a feasibly accurate date. We were able to catch several Agents as part of the “clean up” crews on the surveillance videos. CIA and allegiant proxies or community “stalker” undeputized assets loyal to a fringe group referred to as the “serpents or vampires” are seen below along with others linked within the neural network (some innocent – most associated in one way or another braking the defendants civil rights and liberties (R. Michell & V. Sysa).

#### CIA CLEAN UP CREW PHOTOS –

The photos below are acquired from security footage. All figures so not be present within this apartment for any reason and both occupants would testify to this fact. These individuals have knowledge of attempted murder, mutiny, terrorism and the use of this weapon of mass destruction mentioned within this brief. The victims of these crimes have been irreparably harmed, mentally, physically, emotionally and financially. They need assistance and help from law enforcement to repair their lives as they will never be the same. Please contact us ASAP.

Negating Miranda Laws - Right to remain silent, right to counsel, right to due process, right to face ones accuser, right to a fair trial, right to mount an equitable defense, right to appeal etc.

#### ADDITIONAL KNOWLEDGE OF WRONG DOING:

- 1) This fringe group targeting POTUS, the Vice President and the Madam President with mental, emotional and decision making manipulation and nano technology that has adversely affected his performance. He is unknowingly with a neural construct via the utilization of his neural signature “unaware” and non consensually. This can undoubtedly cause his death and health issues. I am also aware of an FBI coverup of this fact and constant malicious prosecution and threats of physical violence.
- 2) I am aware of subconscious and subliminal forms of RNM being dispensed upon not only the significant others and family members of targeted victims but also a considerable portion of the U.S. population “literally” puppeteering and controlling peoples lives, decisions and the outcomes of important events in their lives. This form of RNM (covert) is the most destructive and heinous form of remote neural monitoring and mind control as the targeted subjects believe it is their own thoughts and actions.
- 3) I am aware of CIA FOB’s (off shore) housing “blanket slated” citizens in neural incubators who are subjected to hideous human experimentation including “consciousness transfers”. I am aware of young adults being led to these locations and disappearing.
- 4) I am aware of U.S. Citizens neural signatures “unwittingly” and non consensually being used as the equivalent of “human capital” and harvested to train DCNN’s (deep convolutional neural networks), benefit the output of illegal neural networks and for computational assets for robotics and cybertronic research projects.
- 5) I am aware of DARPA’s illegal DNA/PHONON harvesting reactor and collection program utilizing this in association with weapons and human targeting programs (bio resonance and bio coded directed energy).
